The Village Blacksmith Henry Wadsworth Longfellow  
2020-05-12 A contemporary envisioning of a nineteenth-century poem pairs artwork by G. Brian Karas with the Henry Wadsworth Longfellow classic. His brow is wet with honest sweat; He earns whate'er he can, And looks the whole world in the face, For he owes not any man. The neighborhood blacksmith is a quiet and unassuming presence, tucked in his smithy under the chestnut tree. Sturdy, generous, and with sadness of his own, he toils through the

day, passing on the tools of his trade, and come evening, takes a well-deserved rest.

Longfellow's timeless poem is enhanced by G. Brian Karas's thoughtful and contemporary art in this modern retelling of the tender tale of a humble craftsman. An afterword about the tools and the trade of blacksmithing will draw readers curious about this age-honored endeavor, which has seen renewed interest in developed countries and continues to be plied around the world.

**Behn** Janet M. Todd 1997

"Behn is a mass of contradictions: a high Tory who disliked traditional power structures; a powerful, autonomous woman who depended on men's approval; a woman who desired men and women and who became involved in intense political activity, yet craved ease. This readable, fast-paced book uncovers Behn's assertive, duplicitous, sensual character and illustrates the openly erotic nature of her writings,

her explorations of desire, sexual excitement and disappointment, which later made her a byword for lewdness. It reveals historical sources and court cases behind some of her most famous 'fictions'."

**Music as a Science of Mankind in Eighteenth-Century Britain** Dr Maria Semi 2013-01-28 Music as a Science of Mankind offers a philosophical and historical perspective on the intellectual representation of music in British eighteenth-century culture. From the field of natural philosophy, involving the science of sounds and acoustics, to the realm of imagination, involving resounding music and art, the branches of modern culture that were involved in the

intellectual tradition of the science of music proved to be variously appealing to men of letters. Among these, a particularly rich field of investigation was the British philosophy of the mind and of human understanding, developed between the seventeenth and eighteenth centuries, which looked at music and found in its realm a way of understanding human experience. Focussing on the world of sensation - trying to describe how the human mind could develop ideas and emotions by its means - philosophers and physicians often took their cases from art's products, be it music (sounds), painting (colours) or poetry (words as signs of sound conveying a meaning), thus looking at art from a particular point of view: that of the perceiving mind. The relationship between music and the philosophies of mind is presented here as a significant part of the construction of a Science of Man: a huge and impressive 'project' involving both the study of man's nature,

to which – in David Hume's words – 'all sciences have a relation', and the creation of an ideal of what Man should be. Maria Semi sheds light on how these reflections moved towards a Science of Music: a complex and articulated vision of the discipline that was later to be known as 'musicology'; or Musikwissenschaft.

Aphra Behn: A Secret Life

Janet Todd 2017-11-02

'Fascinating scholarship. Todd conveys Behn's vivacious character and the mores of the time' New York Times 'All women together ought to let flowers fall upon the tomb of Aphra Behn; for it was she who earned them the right to speak their minds,' said Virginia Woolf. Yet that tomb, in Westminster Abbey, records one of the few uncontested facts about this Restoration playwright, poet of the erotic and bisexual, political propagandist, novelist and spy: the date of her death, 16 April

1689. For the rest secrecy and duplicity are almost the key to her life. She loved codes, making and breaking them; writing her life becomes a decoding of a passionate but playful woman. In this revised biography, Janet Todd draws on documents she has rediscovered in the Dutch archives, and on Behn's own writings, to tell a story of court, diplomatic and sexual intrigue, and of the rise from humble origins of the first woman to earn her living as a professional writer. Aphra Behn's first notable employment was as a royal spy in Holland; she had probably also spied in Surinam. It was not until she was in her thirties that she published the first of the nineteen plays and other works which established her fame (though not riches) among her 'good, sweet, honey-candied readers'. Many of her works were openly erotic, indeed as frank as anything by her friends Wycherley and Rochester. Some also offered an inside view of court and political intrigues, and Todd

reveals the historical scandals and legal cases behind some of Behn's most famous 'fictions'. Janet Todd, novelist and internationally renowned scholar, was president of Lucy Cavendish College, Cambridge, and a Professor at Rutgers, NJ. An expert on women's writing and feminism, she has written about many writers, including Jane Austen, the Shelley Circle, Mary Wollstonecraft, and Aphra Behn. 'Ground-breaking it reads quickly and lightly. **Chains** Laurie Halse Anderson 2011-08-02 From acclaimed author Laurie Halse Anderson comes this compelling first novel in the historical middle grade The Seeds of America trilogy that shows the lengths we can go to cast off our chains, both physical and spiritual. As the Revolutionary War begins, thirteen-year-old Isabel wages her own fight...for

freedom. Promised freedom upon the death of their owner, she and her sister, Ruth, in a cruel twist of fate become the property of a malicious New York City couple, the Locktons, who have no sympathy for the American Revolution and even less for Ruth and Isabel. When Isabel meets Curzon, a slave with ties to the Patriots, he encourages her to spy on her owners, who know details of British plans for invasion. She is reluctant at first, but when the unthinkable happens to Ruth, Isabel realizes her loyalty is available to the bidder who can provide her with freedom.

*Forming Sleep* Nancy L. Simpson-Younger 2020-04-22 *Forming Sleep* asks how biocultural and literary dynamics act together to shape conceptions of sleep states in the early modern period. Engaging with poetry, drama, and prose largely written in English between 1580 and 1670, the essays in this collection highlight period discussions about how seemingly insentient states might actually enable self-formation. Looking at literary representations of sleep through formalism, biopolitics, Marxist theory, trauma theory, and affect theory, this volume envisions sleep states as a means of defining the human condition, both literally and metaphorically. The contributors examine a range of archival sources—including texts in early modern faculty psychology, printed and manuscript medical treatises and physicians' notes, and printed ephemera on pathological sleep—through the lenses of both classical and

contemporary philosophy. Essays apply these frameworks to genres such as drama, secular lyric, prose treatise, epic, and religious verse. Taken together, these essays demonstrate how early modern depictions of sleep shape, and are shaped by, the philosophical, medical, political, and, above all, formal discourses through which they are articulated. With this in mind, the question of form merges considerations of the physical and the poetic with the spiritual and the secular, highlighting the pervasiveness of sleep states as a means by which to reflect on the human condition. In addition to the editors, the contributors to this volume include Brian Chalk, Jennifer Lewin, Cassie Miura, Benjamin Parris, Giulio Pertile, N. Amos Rothschild, Garret A. Sullivan Jr., and Timothy A. Turner.

Music is a human activity which involves structured and audible sounds, which is used for artistic or aesthetic, entertainment, or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European-influenced classical music: melody, harmony, rhythm, tone color/timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody, which is a succession of notes heard as some sort of unit; chord, which is a simultaneity of notes heard as some sort of unit; chord
