The American Experience in Vietnam The Editors of Boston Publishing Company 2014-11-01 The landmark, Pulitzer Prize-nominated, bestselling illustrated history, updated for the fiftieth anniversary of the Vietnam War. When it was originally published, the twenty-five-volume Vietnam Experience offered the definitive historical perspectives of the Vietnam War from some of the best rising authors on the conflict. This new and reimagined edition updates the war on the fifty years that have passed since the war's initiation. The official successor to the Pulitzer Prize-nominated set, The American Experience in Vietnam combines the best serious historical writing about the Vietnam War with new, never-before-published photos and perspectives. New content includes social, cultural, and military analysis; a view of post-1980s Vietnam; and contextualizing discussion of US involvement in the Persian Gulf, Iraq, and Afghanistan. Even if you own the original, The American Experience in Vietnam is a necessary addition for any modern Vietnam War enthusiast. Praise for The American Experience in Vietnam "The heart of the book is a well-written, objectively presented history of the war that

includes a lot of military history." —Vietnam Veterans of America

The Gothic Other Ruth Bienstock Anolik 2014-09-26 Literary use of the Gothic is marked by an anxious encounter with otherness, with the dark and mysterious unknown. From its earliest manifestations in the turbulent eighteenth century, this seemingly escapist mode has provided for authors a useful ground upon which to safely confront very real fears and horrors. The essays here examine texts in which Gothic fear is relocated onto the figure of the racial and social Other, the Other who replaces the supernatural ghost or grotesque monster as the code for mystery and danger, ultimately becoming as horrifying, threatening and unknowable as the typical Gothic manifestation. The range of essays reveals that writers from many canons and cultures are attracted to the Gothic as a ready medium for expression of racial and social anxieties. The essays are grouped into sections that focus on such topics as race, religion, class, and centers of power.

The Nation's Region Leigh Anne Duck 2009 How could liberalism and

apartheid coexist for decades in our country, as they did during the first half of the twentieth century? This study looks at works by such writers as Thomas Dixon, Erskine Caldwell, Zora Neale Hurston, William Faulkner, and Ralph Ellison to show how representations of time in southern narrative first accommodated but finally elucidated the relationship between these two political philosophies. Although racial segregation was codified by U.S. law, says Leigh Anne Duck, nationalist discourse downplayed its significance everywhere but in the South, where apartheid was conceded as an immutable aspect of an anachronistic culture. As the nation modernized, the South served as a repository of the country's romantic notions: the region was represented as a close-knit, custom-bound place through which the nation could temper its ambivalence about the upheavals of progress. The Great Depression changed this. Amid economic anxiety and the international rise of fascism, writes Duck, "the trope of the backward South began to comprise an image of what the United States could become." As she moves from the Depression to the nascent years of the civil rights movement to the early cold war era, Duck explains how experimental writers in each of these periods challenged ideas of a monolithically archaic South through innovative representations of time. She situates their narratives amid broad concern regarding national modernization and governance, as manifest in cultural and political debates, sociological studies, and popular film. Although southern modernists' modes and methods varied along this trajectory, their purpose remained focused: to explore the mutually constitutive relationships between social forms considered "southern" and "national."

Reconstructing American Historical Cinema J.E. Smyth 2006-10-27
In *Reconstructing American Historical Cinema: From Cimarron to Citizen Kane*, J. E. Smyth dramatically departs from the traditional understanding of the relationship between film and history. By looking at production records, scripts, and contemporary reviews, Smyth argues that certain classical Hollywood filmmakers were actively engaged in a self-conscious and often critical filmic writing of national history. Her

volume is a major reassessment of American historiography and cinematic historians from the advent of sound to the beginning of wartime film production in 1942. Focusing on key films such as *Cimarron* (1931), *The Public Enemy* (1931), *Scarface* (1932), *Ramona* (1936), *A Star Is Born* (1937), *Jezebel* (1938), *Young Mr. Lincoln* (1939), *Gone with the Wind* (1939), *Stagecoach* (1939), and *Citizen Kane* (1941), Smyth explores historical cinema's connections to popular and academic historiography, historical fiction, and journalism, providing a rich context for the industry's commitment to American history. Rather than emphasizing the divide between American historical cinema and historical writing, Smyth explores the continuities between Hollywood films and history written during the first four decades of the twentieth century, from Carl Becker's famous "Everyman His Own Historian" to Howard Hughes's *Scarface* to Margaret Mitchell and David O. Selznick's *Gone with the Wind*. Hollywood's popular and often controversial cycle of historical films from 1931 to 1942 confronted issues as diverse as frontier racism and women's experiences in the nineteenth-century South, the decline of American society following the First World War, the rise of Al Capone, and the tragic history of Hollywood's silent era. Looking at rarely discussed archival material, Smyth focuses on classical Hollywood filmmakers' adaptation and scripting of traditional historical discourse and their critical revision of nineteenth- and twentieth-century American history. *Reconstructing American Historical Cinema* uncovers Hollywood's diverse and conflicted attitudes toward American history. This text is a fundamental challenge the prevailing scholarship in film, history, and cultural studies.

American History, Volume 2 Thomas S. Kidd 2019-04-01
American History volume 2 gives a wide overview of America's history from the end of the Civil War era, to the political and cultural struggles of contemporary times. Thomas S. Kidd employs lessons learned from his own scholarly expertise and history classes to weave together a compelling narrative of the defeats and triumphs that have defined the American national experience. Unlike many textbooks of modern American history, religion and faith remain central aspects of the book's

coverage, through present-day America. It gives detailed treatment of episodes such as America's military conflicts, the Civil Rights movement, and the culture wars of the past half-century. Professor Kidd also considers the development of America's obsession with entertainment, from the rise of the first movies, to the social media age. American History volume 2 will help students wrestle with the political and cultural changes that have dramatically transformed contemporary American life

A History of the American People: To 1877 Stephan Thernstrom 1989 This introductory survey of American history from the European voyages of discovery to the present includes the political history of the United States written from the perspective of a social historian. It focuses on the activities of people, woven into the narrative as an integral part of American history. All major historical and political events are discussed, providing the reader with a human perspective on these developments.

To the Finland Station Edmund Wilson 2019-11-12 One of the great works of modern historical writing, the classic account of the ideas, people, and politics that led to the Bolshevik Revolution Edmund Wilson's To the Finland Station is intellectual history on a grand scale, full of romance, idealism, intrigue, and conspiracy, that traces the revolutionary ideas that shaped the modern world from the French Revolution up through Lenin's arrival at Finland Station in St. Petersburg in 1917. Fueled by Wilson's own passionate engagement with the ideas and politics at play, it is a lively and vivid, sweeping account of a singular

idea—that it is possible to construct a society based on justice, equality, and freedom—gaining the power to change history. Vico, Michelet, Bakunin, and especially Marx—along with scores of other anarchists, socialists, nihilists, utopians, and more—all come to life in these pages. And in Wilson's telling, their stories and their ideas remain as alive, as provocative, as relevant now as they were in their own time.

Delta Wedding Eudora Welty 1979-03-21 This novel of a Mississippi family in the 1920s “presents the essence of the Deep South and does it with infinite finesse” (The Christian Science Monitor). From one of the most treasured American writers, winner of a National Book Award and Pulitzer Prize, comes Delta Wedding, a vivid and charming portrait of Southern life. Set in 1923, the story is centered on the Fairchilds, a big and clamorous family, who live on a plantation in the Mississippi delta. They are in the midst of planning their daughter's wedding when a nine-year-old relative, Laura McRaven, whose mother has just died, comes to visit. Drama leads to drama, revelation to revelation, in a novel that is “nothing short of wonderful” (The New Yorker). The result is a sometimes-riotous view of a Southern family, and the parentless child who learns to become one of them.

Taking Religion Seriously Across the Curriculum Warren A. Nord 1998 The authors chart a middle course in our war over religion and public education, one that builds on a developing national consensus among educational and religious leaders. While it is not proper for schools to practice religion or proselytize, neither is it permissible to make them religion-free zones. Schools do not take religion seriously, as the authors' review of textbooks and the new national content standards makes clear.

In Part One, they outline the civic, constitutional, and educational frameworks that should shape the treatment of religion in the curriculum and classroom. In Part Two, they explore major issues relating to religion in different domains of the curriculum in elementary education and in middle and high school courses in history, civics, economics, literature, and the sciences. They also discuss Bible courses and world religions courses and explore the relationship of religion to moral education and sex education.

The Robber Bridegroom Eudora Welty 1978-11-08 The Pulitzer Prize-winning author takes a classic fairy tale and turns it into a novel set along the eighteenth-century frontier of the Natchez Trace. In the clammy forests of Louisiana, somewhere between New Orleans and the muddy Mississippi River, the berry-stained bandit of the woods, Jamie Lockhart, saves the life of a gullible planter. In reward, Jamie is given shelter—only to kidnap the planter's lovely young daughter, Rosamund. It's an impulsive act that will have far-reaching consequences, and will set in motion a series of fantastic, murderous, and flamboyantly uncivilized romantic adventures. With legendary figures of Mississippi's past—including notorious riverboatman Mike Fink and the thrill-killing Harp brothers—mingling side-by-side with characters from legendary fairy tales and the author's own imagination, *The Robber Bridegroom* in an exuberant cocktail of fantasy, folklore and history along the treacherous Natchez Trace. The basis of the popular musical that has run both on and off Broadway, *The Robber Bridegroom* is "a modern fairy tale, where irony and humor, outright nonsense, deep wisdom and surrealistic extravaganzas becomes a poetic unity through the power of a pure exquisite style" (*The New York Times*). "As sly and irresistible as anything in *Candide*. For all her wild, rich fancy, Welty writes prose that is as disciplined as it is beautiful." —*The New Yorker*
