Cognitive Remediation Therapy (CRT) for Eating and Weight Disorders Kate Tchanturia 2014-10-23 The effective treatment of anorexia nervosa (AN) remains a significant challenge. This has prompted new research into ways of engaging and keeping patients in treatment and ultimately achieving better outcomes, not only on a symptomatic level but also in broader aspects of life. In this book Kate Tchanturia brings together international experts from the field of eating disorders to discuss the effectiveness of cognitive remediation therapy for treating anorexia nervosa, and keeping patients in therapy. Cognitive Remediation Therapy (CRT) is a type of therapy that concentrates on improving neurocognitive abilities such as attention, working memory, cognitive flexibility and planning, and executive functioning which leads to improved general functioning. Recent research has demonstrated the effectiveness of the approach for treating those with anorexia nervosa, cognitive improvements have been noted in patients, and the approach is associated with low drop-out rates from the treatment, and high levels of acceptability among both patients and therapists. This book presents research focussing on: - individual therapy with adults - family-based therapy - CRT with young people - group format of CRT - adapting interventions for people with co-morbidities - clinicians experiences working with CRT Illustrated throughout with case studies, and integrating neuropsychological testing and brain imaging this book discusses the latest research on this novel treatment approach. It will be key reading for researchers and academics in the eating disorders field wanting to trial the approach, as well as final year undergraduates and postgraduate clinical psychology students looking for a new perspective.

Using Reflection and Metacognition to Improve Student Learning Naomi Silver 2023-07-03 Research has identified the importance of helping students develop the ability to monitor their own comprehension and to make their thinking processes explicit, and indeed demonstrates that metacognitive teaching strategies greatly improve student engagement with course material. This book -- by presenting principles that teachers in higher education can put into practice in their own classrooms -- explains how to lay the ground for this engagement, and

help students become self-regulated learners actively employing metacognitive and reflective strategies in their education. Key elements include embedding metacognitive instruction in the content matter; being explicit about the usefulness of metacognitive activities to provide the incentive for students to commit to the extra effort; as well as following through consistently. Recognizing that few teachers have a deep understanding of metacognition and how it functions, and still fewer have developed methods for integrating it into their curriculum, this book offers a hands-on, user-friendly guide for implementing metacognitive and reflective pedagogy in a range of disciplines. Offering seven practitioner examples from the sciences, technology, engineering and mathematics (STEM) fields, the social sciences and the humanities, along with sample syllabi, course materials, and student examples, this volume offers a range of strategies for incorporating these pedagogical approaches in college classrooms, as well as theoretical rationales for the strategies presented. By providing successful models from courses in a broad spectrum of disciplines, the editors and contributors reassure readers that they need not reinvent the wheel or fear the unknown, but can instead adapt tested interventions that aid learning and have been shown to improve both instructor and student satisfaction and engagement.

A Teacher's Reflection Book Jean Koh Peters 2011 In university teachers' hectic lives, finding space to reflect, restore, renew, and recommit can seem impossible. Jean Koh Peters and Mark Weisberg believe regular reflection is critical and have designed *A Teacher's Reflection Book* to help teachers and other professionals find that space. Growing out of the authors' extensive experience facilitating retreats and leading teaching and learning workshops, the book builds on their discoveries in those settings, supporting and promoting teachers' self-directed development. Inviting that development, *A Teacher's Reflection Book* is a cornucopia of stories, exercises, and examples that will inspire teachers to make reflection a cornerstone of their daily lives. With its multiple suggestions and strategies, it offers something for every reader, and is responsive to teachers' needs at all stages of their careers. The book's six chapters offer readers several perspectives from which to reflect. Some sections offer glimpses of teachers in the midst of their daily teaching lives, while others step away, inviting readers to reflect on what it means to have a vocation as a teacher. The book explores how we listen, a crucial yet rarely taught skill, essential for reflecting, as well as for learning and teaching. And it invites teachers to reflect on their students: who they are, and what and how they learn. For those latter reflections, the authors turn the focus on fear, which so pervades university life and which can distort learners' and teachers' perspectives and responses. Throughout this book, readers will visit several classrooms and listen to the evocative voices of several thoughtful students. Revelatory, practical, and wise, *A Teacher's Reflection Book* is a valuable companion and guide. "One key strength of the book is its authentic writing style, which engages the reader and builds the trustworthiness of the authors. Another strength is the book's wealth of readings and the activities it offers to catalyze teacher reflection." -- *Teaching Theology and Religion*, Ryan S. Gardner "This excellent book should be part of every teacher's professional library. It is a book pitched at all teachers in higher education and, through the processes of reflection, a book that advances important principles of good teaching practice that are usually introduced all too briefly in the

basic texts on teaching in higher education. ...Several descriptive words come to mind when reading this book. It is a polite and gentle book. Politeness is revealed in the book's sub-title - "Exercises, stories, invitations". It is the idea of invitation that characterizes much of the book. It is not didactic but rather invites us to use the book and the processes described in it in ways that work best for us. It does this through questions and inductive approaches to reflection. Through these approaches and the careful use of real-life examples, we are gently invited to explore the perspectives presented in the text and apply these to our personal and professional lives. It is also an accessible book. Most refreshingly, it is not burdened with unnecessary technical jargon and convoluted language that sadly cripples too much writing in education today and makes learning inaccessible to many, particularly for those readers whose first language is not English." -- Higher Education Research & Development (HERDSA), Robert Cannon "I was asked to write a book review but I find that, instead, I want to write a thank you note thanking Jean Koh Peters and Mark Weisberg for the gift of their book, *A Teacher's Reflection Book*. ...The reflections, examples and exercises you offer in the book make reflecting about both challenging and positive moments in my life as a teacher feel like something I can do easily and regularly. ...In this book, you have found a way to model, encourage and help create a compassionate space where teachers can make the deepest connection between who they are and what they do. You give us permission to find our truth in and the courage to bring our hearts to our teaching and writing. You have made a home for reflection." -- The Law Teacher, Kimberly Kirkland, University of New Hampshire School of Law "We are all so busy. We race from task to task. We attempt to multi-task; dividing and depleting our energies. How many times do we arrive in class breathless with hardly a moment to think about what we have planned for the day? I harbor no illusions that a blog entry is going to change our lives, but I would like to use this one to reiterate the need to make time for reflection, for contemplation about what we do, and how and why we do it. The value of doing so is laid out clearly in [this] new book..." -- Teaching Professor Blog, Maryellen Weimer

Self-Studies of Science Teacher Education Practices Shawn M. Bullock 2012-03-21 Part of a vital Springer series on self-study practices in teaching and teacher education, this collection offers a range of contributions to the topic that embody the reflections of science teacher educators who have applied self-study methodology to their own professional development. The material recognizes the paradox that lies between classroom science and the education of science teachers: the disciplines of science are often perceived as a quest for right answers, an unintentional by-product of the classroom focus on right answers in student assessment in science. In contrast, the profession of teaching has few right answers and frequently involves the management of conflicting tensions. A dilemma thus arises in science teacher education of how to shift perspectives among student teachers from reductionist to more inclusive attitudes that are open to the mercurial realities of teaching. The self-studies presented here are unique, fresh and stimulating. They include the input of a beginning science teacher as well as science teacher educators from a range of backgrounds and varying levels of experience. In addition, the volume presents a truly international perspective on the issues, with authors hailing from five countries. Providing analysis at the leading edge of education theory, this collection will make fascinating reading for those teaching science—as well as those teaching science teachers.

Sport, Play, and Ethical Reflection Randolph Feezell 2010-10-01 In paperback for the first time, Randolph Feezell's *Sport, Play, and Ethical Reflection* immediately tackles two big questions about sport: "What is it?" and "Why does it attract so many people?" Feezell argues that sports participation is best described as a form of human play, and the attraction for participants and viewers alike derives from both its aesthetic richness and narrative structure. He then claims that the way

in which sports encourage serious competition in trivial pursuits is fundamentally absurd, and therefore participation requires a state of irony in the participants, where seriousness and playfulness are combined. Feezell builds on these conclusions, addressing important ethical issues, arguing that sportsmanship should be seen as a kind of Aristotelian mean between the extremes of over- and under-investment in sport. Chapters on cheating, running up the score, and character building stress sport as a rule-governed, tradition-bound practice with standards of excellence and goods internal to the practice. With clear writing and numerous illuminating examples, Feezell demonstrates deep insight into both of his subjects.

Resonating Sacralities Lieke Wijnia 2022-01-19 In The Netherlands, the arts have gained a sacralized status, while religion is increasingly viewed through the lens of heritage. The dynamic resonance of sacred forms this results in, is exemplary for the postsecular. Exploring this resonance, this book offers a strong counterweight to the popular trope of the arts having replaced religion in secularized societies. Instead it approaches artistic performance, religion, and its heritage as mutually engaging sacred forms. Lieke Wijnia thoroughly connects theoretical perspectives on the sacred with ethnographic research at the annual festival Musica Sacra Maastricht. She explores the continued relevance of a broad conceptual approach to the sacred, as well as the practical side to negotiating the sacred at the festival. The resulting analyses shed new light on topics like musical performance as generator of the sacred, how art and heritage impact the continuity of religion in secularized societies, and the fragility of artistic performance in the contemporary fragmented framework of the sacred. This book offers an innovative and interdisciplinary interpretation of the continuing significant role of art and religion in postsecular societies.

The Oxford Handbook of Virginia Woolf Anne E. Fernald 2021-08-12 With thirty-nine original chapters from internationally prominent scholars, The Oxford Handbook of Virginia Woolf is designed for scholars and graduate students. Feminist to the core, each chapter examines an aspect of Woolf's achievement and legacy. Each contribution offers an overview that is at once fresh and thoroughly grounded in prior scholarship. Six sections focus on Woolf's life, her texts, her experiments, her life as a professional, her contexts, and her afterlife. Opening chapters on Woolf's life address the powerful influences of family, friends, and home. The section on her works moves chronologically, emphasizing Woolf's practice of writing essays and reviews alongside her fiction. Chapters on Woolf's experimentalism pay special attention to the literariness of Woolf's writing, with opportunity to trace its distinctive watermark while 'Professions of Writing', invites readers to consider how Woolf worked in cultural fields including and extending beyond the Hogarth Press and the TLS. The 'Contexts' section moves beyond writing to depict her engagement with the natural world as well as the political, artistic, and popular culture of her time. The final section on afterlives demonstrates the many ways Woolf's reputation continues to grow, across the globe, and across media, in ideas and in artistic expression. Of particular note, chapters explore three distinct Woolfian traditions in fiction: the novel of manners, magical realism, and the feminist novel.

Interaction and Everyday Life Hisashi Nasu 2012 Through a wide-ranging international collection of papers, this volume provides theoretical and historical insights into the development and application of phenomenological sociology and ethnomethodology and offers detailed examples of research into social phenomena from these standpoints. Practicing Critical Reflection in Social Care Organisations Jan Fook

2021-09-09 This book explores concrete examples of different strategies and activities aimed at creating and embedding critically reflective learning and working environments within organisations whose prime function is social care. Critical reflection has long been recommended as a general professional skill and is a core component of the practice capabilities in social work in countries across the Western world. However, despite unequivocal support for it in social work education, sustaining critical reflection within organisations as both an individual and collective practices, supported by organisational cultures, is problematic. With contributions from social work practitioners and educators who have sought to embed critical reflection into broader activities and cultures within their organizations, the book addresses common features of critical reflection, and challenges and benefits in specific case studies. This book will inspire and develop new thinking and vision about being critically reflective in organisations, and facilitate efforts to improve the learning and working experience in addition to that of service quality and delivery. It will be required reading for all undergraduate and postgraduate social work modules focusing on management, leadership organizational change, and professional education.

The Power of Reflection in Teacher Education and Professional Development Fred Korthagen 2022-05-11 Based on years of extensive research on teacher development, this book offers a practical introduction to the concept of teacher reflection, demonstrating how student teachers can engage with reflective learning from their teaching and classroom experiences in a systematic and inspiring way. Providing practical models and guidelines for use in the classroom, renowned teacher educators Fred Korthagen and Ellen Nuijten outline various strategies for promoting reflection and illustrate how a deeper form of reflection — ‘core reflection’ — enhances awareness of professional identity and supports the dismantling of inner obstacles, therefore enhancing social justice and empowering diverse student populations. The authors demonstrate how a trajectory for learning can be designed to develop key competencies, as well as the role played by university- and school-based teacher educators in supporting teachers’ self-directed reflection. Featuring a variety of tools that support professional growth, this unique text demystifies the area of teacher reflection, helping to provide concrete and inspiring examples for how to strengthen professional identity based on everyday challenges faced by practitioners. *The Power of Reflection in Teacher Education and Professional Development* is therefore an essential guide for students, in-service teachers, and teacher educators alike, as well as for anyone in the helping professions.

Race, Law, and Culture Austin Sarat 1997-03-06 When it comes to race and racial issues these are strange times for all Americans. More than forty years after *Brown v. Board of Education* put an end to segregation of the races by law, current debates about affirmative action, multiculturalism, and racial hate speech reveal persistent uncertainty about the place and meaning of race in American culture and the role of law in guaranteeing racial equality. Moreover, all sides in those debates claim to be the true heirs to *Brown*, even as they disagree vehemently about its meaning. *Race, Law and Culture* takes the continuing controversy about race in law and culture as an invitation to revisit *Brown*, using this case as a lens through which to view that controversy and the issues involved in it. The essays collected here describe the contested legacy of *Brown* as well as the way it is implicated in America's persistent uncertainties about race. In so doing they confront crucial questions about race, law and culture in contemporary America: What were the legal and cultural visions contained in *Brown*? How have those visions been articulated in other legal struggles? Why does the subject of race continue to haunt the American imagination? With original essays from contributors such as David Garrow, Lawrence Friedman, and Hazel Carby, this work will be an important perspective from which to view questions of race in modern America.

Take Me to My Paradise Colleen Ballerino Cohen 2010-09-27 The British Virgin Islands (BVI) markets itself to international visitors as a paradise. But just whose paradise is it? Colleen Ballerino Cohen looks at the many players in the BVI tourism culture, from the tourists who leave their graffiti at beach bars that are popularized in song, to the waiters who serve them and the singers who entertain them. Interweaving more than twenty years of field notes, Cohen provides a firsthand analysis of how tourism transformed the BVI from a small neglected British colony to a modern nation that competes in a global economic market. With its close reading of everything from advertisements to political manifestos and constitutional reforms, *Take Me to My Paradise* deepens our understanding of how nationalism develops hand-in-hand with tourism,

and documents the uneven impact of economic prosperity upon different populations. We hear multiple voices, including immigrants working in a tourism economy, nationalists struggling to maintain some control, and the anthropologist trying to make sense of it all. The result is a richly detailed and accessible ethnography on the impact of tourism on a country that came into being as a tourist destination.

Reflections on Qualitative Research in Language and Literacy Education Seyyed-Abdolhamid Mirhosseini 2017-01-11 This book discusses aspects of the theory and practice of qualitative research in the specific context of language and literacy education. It addresses epistemological perspectives, methodological problems, and practical considerations related to research involvements in areas of language education and literacy studies rather than generic issues of other fields of social sciences. The volume starts with Theoretical Considerations in the first part and raises some epistemological and theoretical concerns that are rarely debated in the specific context of research on language and literacy teaching. The second part, Methodological Approaches explores issues of the design and implementation of language and literacy education research within the framework of some of the major established qualitative research traditions. Finally, the part on Research in Action discusses practical aspects of a few actual instances of qualitative research on language and literacy education in different contexts.

Reflection, Change, and Reconstruction in the Context of Educational Reform and Innovation in China Yuhong Jiang 2013-01-16 This book delivers a state-of-the-art survey of the issues and approaches in contemporary English as a foreign language (EFL) teacher education. It examines the professional development of the teachers who taught English as a foreign language and engaged in a teacher preparation programme of reflective teaching at a university in China. Situated in the context of the reforms of English language teaching and teacher education, this book focuses on the theme of how, if at all, reflective teaching contributes to Chinese university EFL teachers' development in thinking about English language teaching and in their own classroom practice. To date, the study of English as a foreign language teacher education and professional development mainly focused on the teaching skills and pedagogical knowledge of teachers. However, this book approaches English language teacher education from a different perspective, through an empirical exploration of the teachers' professional development in their thinking, beliefs, values, understandings of teaching, awareness of students, and their classroom practice while engaged with reflective teaching practice at the group level and the individual level respectively. Adopting an interpretivist and constructivist epistemological paradigm, and drawing on key aspects of reflective teaching theory, the book investigates how the novice, developing, and experienced teachers differed in their views about reflective practice; how the teachers' thinking about English language teaching transformed; how the teachers' performance in EFL classroom practice developed; and how the teachers dealt with the changes during the period of the teacher education programme. In addition, the book provides examples of research into the ways that individuals integrate multiple levels of reflection, accommodate different types of reflection, and make them interact with each other mutually and inseparably by using a more comprehensive and multidimensional reflective teaching model. Thus the book helps to better understand teachers' trajectory of professional growth and is a new and unique resource for exploring effective ways of language teacher education for teachers, teacher educators, and educational researchers alike.
