With the king standing between them, they would face in opposite directions; one looking to the west and the other to the east, but at the same time, and without the use of any reflective surfaces, they would both be able to observe the king clearly. How was this possible? Pure Logic Riddles: There are two glasses. One contains water, and the other contains an equal quantity of wine. Lateral Thinking Puzzles: Five men are going to church. It starts to rain, and four of the men begin to run. When they arrive at the church, the four men who ran are soaking wet, whereas the fifth man, who didn't run, is completely dry. How is this possible? Think Twice Riddles: If you are running a race, and you overtake the person in second place, what place do you move into? Word Riddles: SOS is read the same forwards, backwards, and even upside-down. What four-letter word also shares these properties? Number Puzzlers: How many letters are there in the answer to this question? You have an opportunity to buy a hen. The Little Giant Book of Riddles

Joseph Rosenbloom 1996 It's dangerous to find over 1,750 riddles in one place, and the silly cartoons throughout this collection only make it harder to stop turning the pages. They're organized into 20 categories to keep you from getting lost (or losing your mind). Still, you can't stop turning the pages as you riddle yourself over money, getting sick, hurling insults, thinking up comebacks, enjoying nature, driving, playing, using computers. Just in time, the last riddle appears: What do joggers say when they leave you? So long, gotta run. 352 pages, 160 b/w illus., 4 3/16 x 5 1/4.
