Readings in the Philosophy of Law - Third Edition Keith C. Culver 2017-05-25 A rigorous introduction to profound questions about the nature and role of law.
The Philosophy of Free Will Paul Russell

2013-04-04 This collection provides a selection of the most essential contributions to the contemporary free will debate. Among the issues discussed and debated are skepticism and naturalism, alternate possibilities, the consequence argument, libertarian metaphysics,

illusionism and revisionism, optimism and pessimism, neuroscience and free will, and experimental philosophy.

Freedom and Responsibility Herbert Morris
1961

Readings in the Philosophy of Law Jules L. Coleman 2013-11-26 An extraordinary collection of the finest essays in the core areas of legal philosophy, *Readings in Philosophy of Law* is a perfect introduction to the breadth of issues covered in the philosophy of law. The essays are all classic papers chosen as much for their clarity of thought and comprehensiveness as for their distinctiveness and importance to the subject matters of legal philosophy. This collection is ideal for the professional as well as the student, as it brings together classic essays that are not otherwise available in one volume. The reader sees each author's thoughts and arguments unfold naturally within the context of other important works. For breadth of contributions and intellectual rigor, *Readings in*

Philosophy of Law is unrivalled.

Readings in the Philosophy of Law John Arthur 2001 For sophomore/junior courses in Philosophy of Law. This anthology of classical and contemporary philosophical and legal essays and legal cases focuses on legal philosophy as its own subject rather than as an outgrowth of social or political philosophy or applied ethics. The essays focus on how law is organized and the particular philosophical issues that law raises. The book requires students to think through actual debates many of them still live in the courts.

The Epistemological Foundations of Law Isaak Ismail Dore 2007 This book differs from a standard jurisprudence text in that it examines law as a truth claim. Its major question is whether there are any eternal truths about the law, and, if so, whether they are knowable. Examples of questions discussed are: What is the correct foundation of law? Is it knowable? What is its source? What is the role of reason? Does

reason exist apart from the "sources" of law, in the Cartesian tradition separating mind and body (res cogitans and res extensa)? What is the nature of the obligation to obey the law and how does it arise? What is the nature of the connection between law and morality? The first Western philosopher who explicitly asserted that law is a truth claim was Socrates. It is not surprising that other Western philosophers followed this path. This book traces the origins of this claim to some 500 years before Socrates walked the streets of Athens and then provides a complete historical profile over eight overlapping historical/philosophical periods: The pre-philosophical period, the presocratic period, the post-socratic period, the Roman period, the medieval/Christian period, the enlightenment period, the modern period and the postmodern period. These periods are intended to serve as analytical categories on which the organizational framework of the book rests. They also serve as evolutionary guideposts in an intellectual

voyage, so that the reader gets an integrated picture of law not just as a social phenomenon but also as a truth claim, which, like all truth claims, can be critically evaluated. "This book is a brilliantly conceived and executed exploration of the extent to which law is rooted in "truth": rational truth, perceptive truth, and moral truth. This question is obviously foundational to law, whether law is viewed practically or theoretically. Through keen selection of materials and sharp commentary, Professor Dore presents - in one volume - the best current treatment of these issues from a broad historical perspective. It is an engaging and critical achievement, important reading for anyone interested in law as a human institution." -- Laura S. Underkuffler, J. DuPratt White Professor of Law, Cornell University Law School [Canadian Cases in the Philosophy of Law - Fifth Edition](#) Keith C. Culver 2018-05-15 This is a collection of Canadian legal decisions, primarily from the Supreme Court of Canada, along with

international cases that have bearing on Canadian law. The selected cases raise and respond to current and controversial issues in political and legal philosophy. Cases have been edited to present key legal principles and methods of judicial reasoning in action, showing not only what was decided but also how the decisions were made. Topics include: constitutional law, fundamental freedoms, equality rights, civil and criminal responsibility, and sovereignty. This new fifth edition adds over two dozen new cases, including new sections on Indigenous issues and international law. A helpful glossary of common legal terms has also been added as an appendix.

The Philosophy of Law Frederick F. Schauer 1996 Ideal for undergraduate courses in philosophy of law, this comprehensive anthology examines such topics as the concept of law, the dispute between natural law theorists and legal positivists, the relations between law and morality, criminal responsibility and legal

punishment, the rights of the individual against the state, justice and equality, and legal evidence as compared with scientific evidence. The readings have been selected from both philosophy and law journals and include classic texts, contemporary theoretical developments, and well-known recent court cases. The text features extensive introductions that make even the most profound writings accessible to undergraduates.

Philosophy of Law Roland Dworkin 1984

Readings in Philosophy of Law John Arthur 1984

Jurisprudence George C. Christie 2008
Hardbound - New, hardbound print book.

The Philosophy of Law Frederick F. Schauer 1996 An anthology that gathers classic texts, contemporary theoretical innovations, and well-known recent court cases. The readings are arranged within eight thematic chapters: what is law?; legal reasoning; the moral force of law; the structure and content of rights; justice and

equality; punishment; responsibility; and legal procedure and evidence. Extensive introductions make the readings accessible to undergraduates in philosophy and political science and to law students. Annotation copyright by Book News, Inc., Portland, OR.

Reason, Morality, and Law John Keown

2013-03-21 John Finnis is a pre-eminent legal, moral and political philosopher. This volume contains over 25 essays by leading international scholars of philosophy and law who critically engage with issues at the heart of Finnis's work.

The Great Legal Philosophers Clarence

Morris 1971 "An attempt to give readers in one volume a speaking acquaintance with the great legal philosophers of the ages"--Preface

Readings in the Philosophy of Law Keith

Charles Culver 2011 Readings by writers including: St. Thomas Aquinas, H.L.A. Hart, Ronald Dworkin, Gerald Dworkin, Oliver Wendell Holmes, John Stuart Mill, Catharine A. MacKinnon, Patrick Devlin, Patricia Smith and

Jerome Frank.

Introduction to the Philosophy of Law

Jefferson White 1999 Introduction to the Philosophy of Law: Readings and Cases employs a combination of case-based and theory-based materials to show novices in the field how the philosophy of law is related to concrete and actual legal practice. Ideal for undergraduates, it engages their curiosity about the law without sacrificing philosophical content. The authors emphasize a command of legal concepts and doctrine as a prelude to philosophical analysis. Designed to acquaint students with the fundamentals of jurisprudence and legal theory, Part I of the book includes readings from influential philosophers representing eight different types of jurisprudence: natural law theory, positivism, constructivism, consequentialism, critical legal studies, feminist theory, practice theory, and new natural law theory. In Part II, the authors present a variety of cases that allow students to apply the theories

in Part I to the actual practice of law. Unlike similar texts, which focus primarily on public law, this unique book addresses both private and public law, and includes cases on statutory interpretation, contract law, and tort law. Brief essays precede and discussion questions follow each case. Introduction to the Philosophy of Law: Readings and Cases serves as an exceptional text for courses in the philosophy of law, jurisprudence, and legal theory.

Jurisprudence George C. Christie 1995 The book consist of nine chapters. The first chapter explores some basic issues and concepts of the philophy of law and concludes with a case on the fugitive Slave Law. The second chapter deals with Aristotles Politics and his Ethics; third Natural Law; fourth Natural Rights; five Legal Positivism; six Analytical Positivism; seventh Reform Jurisprudence; eighth provide Statutes and the last chapter deals with Critical Legal Studies.

Classic and Contemporary Readings in the

Philosophy of Education Steven M. Cahn 2012-04-19 Now even more affordably priced in its second edition, Classic and Contemporary Readings in the Philosophy of Education is ideal for undergraduate and graduate philosophy of education courses. Editor Steven M. Cahn, a highly respected contributor to the field, brings together writings by leading figures in the history of philosophy and notable contemporary thinkers. The first section of the book provides material from nine classic writers, while the second section presents twenty-one recent selections that reflect diverse approaches, including pragmatism, analytic philosophy, feminism, and multiculturalism. The second edition features expanded selections by Locke, Rousseau, Kant, and Dewey, along with eight new readings.

Authority Joseph Raz 1990-12 Authority is one of the key issues in political studies, for the question of by what right one person or several persons govern others is at the very root of

political activity. In selecting key readings for this volume Joseph Raz concerns himself primarily with the moral aspect of political authority, choosing pieces that examine its justification, determine who is subject to it and who is entitled to hold it, and whether there are any general moral limits to it. The readings—by such modern political thinkers as Robert Paul Wolff, H. L. A. Hart, G. E. M. Anscombe, and Ronald Dworkin—examine the basic moral issues and provide an essential introduction to the debate about the nature of authority for all students of political theory.

The Problem of Evil Marilyn McCord Adams 1990 This collection of important writings fills the need for an anthology that adequately represents recent work on the problem of evil. This is perhaps one of the most discussed topics in the philosophy of religion, and is of perennial interest to philosophers and theologians.

Philosophy of Law Larry May 2009-05-18
Philosophy of Law provides a rich overview of

the diverse theoretical justifications for our legal rules, systems, and practices. Utilizes the work of both classical and contemporary philosophers to illuminate the relationship between law and morality Introduces students to the philosophical underpinnings of International Law and its increasing importance as we face globalization Features concrete examples in the form of cases significant to the evolution of law Contrasts Anglo-American law with foreign institutions and practices such as those in China, Japan, India, Ireland and Canada Incorporates diverse perspectives on the philosophy of law ranging from canonical material to feminist theory, critical theory, postmodernism, and critical race theory

Philosophical Problems in the Law David M. Adams 1992 This book should be of interest to designed for introductory level philosophy of law or jurisprudence courses.

Readings on Laws of Nature John W. Carroll 2004 As a subject of inquiry, laws of nature exist

in the overlap between metaphysics and the philosophy of science. Over the past three decades, this area of study has become increasingly central to the philosophy of science. It also has relevance to a variety of topics in metaphysics, philosophy of mind, philosophy of language, and epistemology. Readings on Laws of Nature is the first anthology to offer a contemporary history of the problem of laws. The book is organized around three key issues: the matter of distinguishing laws from mere correlations, questions concerning inductive reasoning and laws, and the consideration of whether there are any true laws in science. Designed for class use, the anthology covers a remarkably broad range of views and concerns, and consists exclusively of articles that have proved highly influential in the field. Readings on Laws of Nature will also serve as a valuable research and reference tool for philosophers who do not specialize in the subject, but who have occasion to examine concepts relating to

the laws of nature in their own work.

Readings in the Philosophy of Technology

David M. Kaplan 2009-10-16 Ideal for professors who want to provide a comprehensive set of the most important readings in the philosophy of technology, from foundational to the cutting edge, this book introduces students to the various ways in which societies, technologies, and environments shape one another. The readings examine the nature of technology as well as the effects of technologies upon human knowledge, activities, societies, and environments. Students will learn to appreciate the ways that philosophy informs our understanding of technology, and to see how technology relates to ethics, politics, nature, human nature, computers, science, food, and animals.

Readings in the Philosophy of Law - Third Edition Keith C. Culver 2017-05-25 Readings in the Philosophy of Law brings together central texts on such topics as legal reasoning, the limits

of individual liberty, responsibility and punishment, and international law. The included selections provide superb coverage of both classic and contemporary views, and are edited only lightly to allow readers to grapple with arguments in their original form. Culver and Giudice's clear, accessible introductions discuss key terms, claims, issues, and points of connection and disagreement. Readings are placed within their historical and social contexts, with analogies and examples emphasizing the continuing relevance of the arguments at issue. This third edition is updated to take account of the rise of legal pluralism, debates over judicial review of constitutional rights, anti-terrorism laws, hate crime, and non-state law at both regional and global levels.

The Concept of Law HLA Hart 2012-10-25 Fifty years on from its original publication, HLA Hart's *The Concept of Law* is widely recognized as the most important work of legal philosophy published in the twentieth century, and remains

the starting point for most students coming to the subject for the first time. In this third edition, Leslie Green provides a new introduction that sets the book in the context of subsequent developments in social and political philosophy, clarifying misunderstandings of Hart's project and highlighting central tensions and problems in the work.

Classic Readings and Cases in the Philosophy of Law Susan Dimock 2016-09-16 With over sixty cases as support, this text presents the philosophy of law as a perpetual series of debates with overlapping lines and cross connections. Using law as a focus to bring into relief many social and political issues of pressing importance in contemporary society, this book encourages readers to think critically and philosophically. *Classic Readings and Cases in the Philosophy of Law* centers on five major questions: What is law? What, if any, connection must there be between law and morality? When should law be used to restrict the liberty of

individuals? To what extent should democratic states permit civil disobedience? What, if anything, justifies the infliction of punishment on those who violate the law? The extensive anthology of cases covers the mundane to the grandest of constitutional issues, including controversial topics like ownership of genetic material, capital punishment, and gay rights. Brief introductions to each case describe the central issue being litigated, the legal reasoning of the justices—both majority and dissenting—the decision of the court, and its philosophical significance.

Philosophy of Law Joel Feinberg 1991 * substantial revision, many new articles & sections have been added.* authors apply abstract theory of philosophy to specific examples in law.* introduction from the authors heads each section to guide students into the material that follows

Aristotle's Legal Theory George Duke
2019-12-19 This book offers a systematic

exposition of Aristotle's legal thought and account of the relationship between law and politics.

Jurisprudence, Text and Readings on the Philosophy of Law GEORGE C.. MARTIN CHRISTIE (PATRICK H.. MACLEOD, ADAM.)
2020-09-11 This book is designed for use in courses in law schools and university departments of philosophy. It can serve as a text for basic and advanced courses and seminars. Readings include excerpts of classic works of Aristotle, Aquinas, Locke, Hobbes, Kant, Bentham, and Austin. Provided also are excerpts from standard works of twentieth century philosophers. The book explores current legal discourse with readings on topics such as sociobiology, Islamic law, the legal process school, legal feminism, critical legal studies, intersectionality and gender identity theories, law and economics, and new private law theories. It reprints leading cases on natural rights/human rights and readings from online

blogs, op-ed essays, news stories and internet publications, as well as drawing on literary treatment of topics relevant to legal philosophy.

Readings in the Philosophy of Law William H. Shaw 2020-07

Law and Philosophy Thomas W. Simon 2001 This analytical anthology introduces students with little background in either to both law and philosophy using prominent classic political philosophers, legal theorists, and abundant landmark court cases. Legal issues are placed in their historical and philosophical contexts. The book considers critical issues such as civil disobedience, war crimes, and the death penalty. It teaches the basics of international, constitutional, and criminal law and shows how philosophy of law helps makes sense of and unifies the seeming scraps and fragments of law. The chapters focus on different areas of law and on different philosophers and philosophies. A classical political philosopher anchors each area of law covered. The anthology includes writings

from prominent political philosophers (Plato, Aristotle, Hobbes, Locke, Kant, Mill, Nietzsche, and Rawls), from classical legal theorists (Aquinas, Grotius, Austin, Fuller, Hart, and Dworkin), and from judicial opinions (Justices Blackmun, Brennan, Marshall, Rehnquist, and Scalia).

Classic Readings and Canadian Cases in the Philosophy of Law Susan Dimock 2002 Intended for upper year university students enrolled in philosophy of law courses. *Classic Readings and Canadian Cases in the Philosophy of Law* is designed to increase student understanding of the role of law in society, as well as historical and philosophical debates surrounding major legal issues. Dimock strikes a balance between traditional philosophical subjects (i.e. the nature of law, morality, liberty) and practical issues of immediate interest to students (i.e. corporate pollution, sexual assault, hate crimes, pornography) by combining theoretical readings with current Canadian legal cases. The readings

showcase experts in each subject area-- both classical and modern, Canadian and international. Pedagogical aids are found throughout the text and include a glossary of legal and philosophical terms, an appendix of relevant sections of the Canadian Charter of Rights and Freedoms, lists of additional readings, and extensive study questions.

Philosophy of Law: A Very Short Introduction

Raymond Wacks 2014-02-27 The concept of law lies at the heart of our social and political life. Legal philosophy, or jurisprudence, explores the notion of law and its role in society, illuminating its meaning and its relation to the universal questions of justice, rights, and morality. In this Very Short Introduction Raymond Wacks analyses the nature and purpose of the legal system, and the practice by courts, lawyers, and judges. Wacks reveals the intriguing and challenging nature of legal philosophy with clarity and enthusiasm, providing an enlightening guide to the central questions of

legal theory. In this revised edition Wacks makes a number of updates including new material on legal realism, changes to the approach to the analysis of law and legal theory, and updates to historical and anthropological jurisprudence.

ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Readings in Jurisprudence and Legal Philosophy

Morris R. Cohen 2002-08-01

[Readings in Political Philosophy](#) Francis William Coker 1914 Selections from Plato, Aristotle, Polybius, St. Thomas Aquinas, Dante, Marsiglio, Machiavelli, Calvin, the *Vindiciae contra tyrannos*, Bodin, Hooker, Grotius, Milton, Hobbes, Harrington, Locke, Montesquieu,

Rousseau, Paine, and Bentham.

Readings in the Philosophy of Law - Second Edition

Keith Culver 2007-08-29 The second edition of *Readings in the Philosophy of Law* is a concise anthology of key arguments in the philosophy of law, organized around the ideas of law and legal reasoning, limits on individual liberty, responsibility, and international law. Selections new to this edition update the anthology while continuing to present legal theory as a set of closely intertwined arguments. Critical Race Theory is addressed, as are challenges to legal theory posed by the emergence of the European Union. The readings provide superb coverage of both classic and contemporary views, and they are edited only lightly to allow readers to grapple with arguments in their original form. Culver's clear, accessible introductions discuss key terms, claims, issues, connections and points of conflict in each section. Culver takes particular care to place arguments in their historical and social

context, with analogies and examples emphasizing the continuing relevance of historical and contemporary arguments. A third edition of this text is forthcoming in early 2017. *Introductory Readings in the Philosophy of Science* E. D. Klemke 1998 This popular reader has been vastly updated with ten stimulating new selections on the natural and the social sciences: feminism; postmodernism, relativism, and science; confirmation, acceptance, and theory; explanatory unification; and science and values. Retaining the best essays from the previous editions, the editors have added important new pieces to maintain this influential text's relevance.

Law and Morality David Dyzenhaus 2007-01-01 Since its first publication in 1996, *Law and Morality* has filled a long-standing need for a contemporary Canadian textbook in the philosophy of law. Now in its third edition, this anthology has been thoroughly revised and updated, and includes new chapters on equality,

judicial review, and terrorism and the rule of law. The volume begins with essays that explore general questions about morality and law, surveying the traditional literature on legal positivism and contemporary debates about the connection between law and morality. These essays explore the tensions between law as a protector of individual liberty and as a tool of democratic self-rule, and introduce debates about adjudication and the contribution of feminist approaches to the philosophy of law. New material on the Chinese Canadian head tax case is also featured. The second part of Law and Morality deals with philosophical questions as they apply to contemporary issues. Excerpts from judicial decisions as well as essays by practicing lawyers are included to provide theoretically informed legal analyses of the issues. Striking a balance between practical and more analytic, philosophical approaches, the volume's treatment of the philosophy of law as a branch of political philosophy enables students

to understand law in its function as a social institution. Law and Morality has proved to be an essential text in both departments of philosophy and faculties of law and this latest edition brings the debates fully up to date, filling gaps in the previous editions and adding to the array of contemporary issues previously covered. **Justice** Jonathan Westphal 1996 The readings in Justice include the central philosophical statements about justice in society organized to illustrate both the political vision of a good society and different attempts at an analysis of the concept of justice.

Readings In The Philosophy Of Law ebook download or read online. In today digital age, eBooks have become a staple for both leisure and learning. The convenience of accessing Readings In The Philosophy Of Law and various genres has transformed the way we consume
