This extraordinary book, aptly titled "**Reading The Lives Of Others A Sequence For Writers**," published by a very acclaimed author, immerses readers in a captivating exploration of the significance of language and its profound effect on our existence. **Write Like this** Kelly Gallagher 2011 If you want to learn how to shoot a basketball, you begin by carefully observing someone who knows how to shoot a basketball. If you want to be a writer, you begin by carefully observing the work of accomplished writers. Recognizing the importance that modeling plays in the learning process, high school English teacher Kelly Gallagher shares how he gets his students to stand next to and pay close attention to model writers, and how doing so elevates his students' writing abilities. *Write Like This* is built around a central premise: if students are to grow as writers, they need to read good writing, they need to study good writing, and, most important, they need to emulate good writers. In *Write Like This*, Kelly emphasizes real-world writing purposes, the kind of writing he wants his students to be doing twenty years from now. Each chapter focuses on a specific discourse: express and reflect, inform and explain, evaluate and judge, inquire and explore, analyze and interpret, and take a stand/propose a solution. In teaching these lessons, Kelly provides mentor texts (professional samples as well as models he has written in front of his students), student writing samples, and numerous assignments and strategies proven to elevate student writing. By helping teachers bring effective modeling practices into their classrooms, *Write Like This* enables students to become better adolescent writers. More important, the practices found in this book will

help our students develop the writing skills they will need to become adult writers in the real world.

*Pieces of Life* Landfall Writer's Group 2016-11-16 *Pieces of Life* is a collection of stories written by the Landfall Writers Group established in 2015 in the community of Landfall in Wilmington NC. The stories include fiction, non-fiction, memories and family history. Following a brief biographical sketch the author readings are arranged to be read in sequence. We hope you find them to be entertaining and enjoyable. You might even shed a tear and have a few good laughs. What are some others saying about *Pieces of Life*? *Pieces of Life* is a nifty book of sketches and stories that will catch your eye and your heart, and you'll say, "Whoa. Writers are among us." The stories are visual and clear and written extremely well. Some will bring a tear-or an out loud laugh. Or both. It's so good to know that people who have or who are pursuing many walks of life see that the making of literature can bring us all closer. The writers in *Pieces of life* highlight the kinds of relationships and feelings and griefs and joys that make us human, together on the same journey, after all. I hope many other communities follow the example set forth between these covers, and form such a group as the Landfall Writer's Group. Vibrancy prevails! Clyde Edgerton, Ph D, Kenan Professor of Creative Writing University of North Carolina Wilmington, author of *The Night Train* and *Walking Across Egypt*. We love stories because we all live our own. When we hear someone else's story, well-told, it can offer light for our own path through life. This book is full of short and delightful tales, told by a group of my neighbors who meet regularly to encourage each other as writers. They can make you laugh, cry, and ponder the wonders of your own adventure, as you take in these snippets of life and thought. Dip in anywhere. I bet you hit on something you'll like. *Motivating Writers in Class* Bruce Saddler 2023-04-14 Writing is a very complex process that is difficult to teach, learn, and research. Although many students struggle with writing, composing often presents major challenges for students with disabilities. One area of written expression that presents particular difficulties for students with disabilities is motivation. Motivation is a key aspect of written expression that helps all writers complete difficult composing tasks. However, students with disabilities may have more negative motivational patterns and may also be less positive about writing and their ability as writers than their normally achieving peers. Logically, this means that effective writing intervention efforts must not only address how to write but must also articulate methods to increase students' motivation to write. This book, written for teachers, scholars, and researchers, focuses on the essential issue of helping students learn how to want to write. Each contributing author presents an important theoretical or pedagogical element of writing motivation, for example: The historical beginnings of research in this area Conceptual and methodological advances in the field of motivation to write Developmental trajectories of writing motivation in typical and atypical populations The effect of playful writing tasks on the development of writing ability as well as on motivation to write The impact of writing prompts on motivation How reading motivation relates and supports writing motivation This book was originally published as a special issue of Reading and Writing Quarterly.

**Writing Lives Together** Felicity James 2017-09-27 A diary entry, begun by a wife and finished by a husband; a map of London, its streets bearing the names of forgotten lives; biographies of siblings, and of spouses; a poem which gives life to long-dead voices from the archives. All these feature in this volume as examples of 'writing lives together': British life writing which has been collaboratively authored and/or joins together the lives of multiple subjects. The contributions to this book range over published and unpublished material from the late eighteenth to the late nineteenth centuries, including biography, auto/biographical memoirs, letters, diaries, sermons, maps and directories. The book closes with essays by contemporary, practising biographers, Daisy Hay and Laurel Brake, who explain their decisions to move away from the single subject

in writing the lives of figures from the Romantic and Victorian periods. We conclude with the reflections and work of a contemporary poet, Kathleen Bell, writing on James Watt (1736-1819) and his family, in a ghostly collaboration with the archives. Taken as a whole, the collection offers distinctive new readings of collaboration in theory and practice, reflecting on the many ways in which lives might be written together: across gender boundaries, across time, across genre. This book was originally published as a special issue of *Life Writing*.

*Transformative Learning Through Creative Life Writing* Celia Hunt 2013-06-26 Arising from a research project conducted over two years, *Transformative Learning through Creative Life Writing* examines the effects of fictional autobiography on adult learners' sense of self. Starting from a teaching and learning perspective, Hunt draws together ideas from psychodynamic psychotherapy, literary and learning theory, and work in the cognitive and neurosciences of the self and consciousness, to argue that creative life writing undertaken in a supportive learning environment, alongside opportunities for critical reflection, has the power to transform the way people think and learn. It does this by opening them up to a more embodied self-experience, which increases their awareness of the source of their thinking in bodily feeling and enables them to develop a more reflexive approach to learning. Hunt locates this work within recent developments in the influential field of transformative learning. She also identifies it as a form of therapeutic education arguing, contrary to those who say that this approach leads to a diminished sense of self, that it can help people to develop a stronger sense of agency, whether for writing or learning or relations with others. Topics covered include: Creative writing as a tool for personal and professional development The transformative benefits and challenges of creative writing as a therapeutic activity The relationships between literary structures and the processes of thinking and feeling The role of cognitive-emotional learning in adult education Collaborative learning and the role of the group This book will interest teachers in adult, further and higher education who wish to use creative life writing as a tool for learning, as well as health care professionals seeking art-based

techniques for use in their practice. It will also prove useful to academics interested in the relationship between education and psychotherapy, and in the theory and practice of transformative learning. Additionally, it will appeal to writers seeking a deeper understanding of the creative process.

*1,000 Books to Read Before You Die* James Mustich 2018-10-02 “The ultimate literary bucket list.” —THE WASHINGTON POST Celebrate the pleasure of reading and the thrill of discovering new titles in an extraordinary book that’s as compulsively readable, entertaining, surprising, and enlightening as the 1,000-plus titles it recommends. Covering fiction, poetry, science and science fiction, memoir, travel writing, biography, children’s books, history, and more, *1,000 Books to Read Before You Die* ranges across cultures and through time to offer an eclectic collection of works that each deserve to come with the

recommendation, You have to read this. But it’s not a proscriptive list of the “great works”—rather, it’s a celebration of the glorious mosaic that is our literary heritage. Flip it open to any page and be transfixed by a fresh take on a very favorite book. Or come across a title you always meant to read and never got around to. Or, like browsing in the best kind of bookshop, stumble on a completely unknown author and work, and feel that tingle of discovery. There are classics, of course, and unexpected treasures, too. Lists to help pick and choose, like *Offbeat Escapes*, or *A Long Climb*, but *What a View*. And its alphabetical arrangement by author assures that surprises await on almost every turn of the page, with Cormac McCarthy and *The Road* next to Robert McCloskey and *Make Way for Ducklings*, Alice Walker next to Isaac Walton. There are nuts and bolts, too—best editions to read, other books by the author, “if you like this, you’ll like that” recommendations, and an interesting endnote of adaptations where appropriate. Add it all up, and in fact there are more than six thousand titles by nearly four thousand authors mentioned—a life-changing list for a lifetime of reading. “948 pages later, you still want more!” —THE WASHINGTON POST

**Therapy, Stand-Up, and the Gesture of Writing** Jonathan Wyatt 2018-12-07 *Therapy, Stand-Up, and the Gesture of Writing* is a sharp, lively exploration of the connections between therapy, stand-up comedy, and writing as a method of inquiry; and of how these connections can be theorized through the author’s new concept: creative-relational inquiry. Engaging, often poignant, stories combine with rich scholarship to offer the reader provocative, original insights. Wyatt writes about his work as a therapist with his client, Karl, as they meet and talk together. He tells stories of his experiences attending comedy shows in Edinburgh and of his own occasional performances. He brings alive the everyday profound through vignettes and poems of work, travel, visiting his mother, mourning his late father, and more. The book’s drive, however, is in

bringing together therapy, stand-up, and writing as a method of inquiry to mobilise theory, drawing in particular from Deleuze and Guattari, the new materialisms, and affect theory. Through this diffractive work, the text formulates and develops creative-relational inquiry. With its combination of fluent story-telling and smart, theoretical propositions, Therapy, Stand-up, and the Gesture of Writing offers compelling possibilities both for qualitative scholars who have an interest in narrative, performative, and embodied scholarship, and those who desire to bring current, complex, theories to bear upon their research practices.
