geography, population, features, etc. of Alabama.

A Pocketful of History James L. Noles 2008-05-06 A fascinating look at the fifty state quarters and what they tell us about a changing America

Uplifting the People Wilson Fallin 2007-08-17 Uplifting the People is a history of the Alabama Missionary Baptist State Convention—its origins, churches, associations, conventions, and leaders. Fallin demonstrates that a distinctive Afro-Baptist faith emerged as slaves in Alabama combined the African religious emphasis on spirit possession, soul-travel, and rebirth with the evangelical faith of Baptists. The denomination emphasizes a conversion experience that brings salvation, spiritual freedom, love, joy, and patience, and also stresses liberation from slavery and oppression and highlights the exodus experience. In examining the social and theological development of the Afro-Baptist faith over the course of three centuries, Uplifting the People demonstrates how black Baptists in Alabama used faith to cope with hostility and repression. Fallin reveals that black Baptist churches were far more than places of worship. They functioned as self-help institutions within black communities and served as gathering places for social clubs, benevolent organizations, and political meetings. Church leaders did more than conduct services; they protested segregation and disfranchisement, founded and operated schools, and provided community leaders for the civil rights movement of the mid-20th century. Through black churches, members built banking systems, insurance companies, and welfare structures. Since the gains of the civil rights era, black Baptists have worked to maintain the accomplishments of that struggle, church leaders continue to speak for social justice and the rights of the poor, and churches now house day care and Head Start programs. Uplifting the People also explores the role of women, the relations between black and white Baptists, and class formation within the black church.

History of Transportation in the United States Before 1860

Balthasar Henry Meyer 1917

American Nations Colin Woodard 2012-09-25 • A New Republic Best Book of the Year • The Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction • Particularly relevant in

understanding who voted for who in this presidential election year, this is an endlessly fascinating look at American regionalism and the eleven “nations” that continue to shape North America According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In *American Nations* he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of *American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good*) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history.

The Shaping of America: A Geographical Perspective on 500 Years of History D. W. Meinig 1986-01-01 Volume one examines how an immense diversity of ethnic and religious groups ultimately created a set of distinct regional societies. Volume two emphasizes the flux, uncertainty, and unpredictability of the expansion into continental America, showing how a multitude of individuals confronted complex and problematic issues.

Backroads of Paradise Cathy Salustri 2017-07-30 In the 1930s, the Federal Writers' Project paid Stetson Kennedy and Zora Neale Hurston, along with other lesser-known writers, to create driving tours of Florida. The FWP and the State of Florida jointly published the results as *Florida: A Guide to the Southernmost State*. In *Backroads of Paradise*, Cathy Salustri retraces the routes these writers traveled, bringing a modern eye to the historic tours.

The Mad Feast: An Ecstatic Tour through America's Food Matthew Gavin Frank 2015-11-09 Finalist for the Art of Eating Prize A richly illustrated culinary tour of the United States through fifty signature dishes, and a radical exploration of our gastronomic heritage. Following his critically acclaimed *Preparing the Ghost*, renowned essayist Matthew

Gavin Frank takes on America's food. In a surprising style reminiscent of Maggie Nelson or Mark Doty, Frank examines a quintessential dish in each state, interweaving the culinary with personal and cultural associations of each region. From key lime pie (Florida) to elk stew (Montana), *The Mad Feast* commemorates the unexpected origins of the familiar. Brazenly dissecting the myriad intersections between history and food, Frank, in this gorgeously designed volume, considers politics, sexuality, violence, grief, and pleasure: the cool, creamy whoopie pie evokes toughness in the face of New England winters, while the stewlike perloo serves up an exploration of food and race in the South. Tracing an unpredictable map of our collective appetites, *The Mad Feast* presents a beguiling flavor profile of the American spirit.

Nevada Megan Kopp 2018-07-15 Did you know that camels were used to cross Nevada's wild deserts in the 1800s? Or that Nevada mines more gold than any other U.S. state? Discover more exciting facts about the history, geography, and symbols of this state in Nevada, part of the Explore the U.S.A. series. Each book in the series uses vibrant images and engaging text to take beginning readers on a journey across the nation.

The Last Slave Ship Ben Raines 2023-01-24 The "enlightening" (The Guardian) true story of the last ship to carry enslaved people to America, the remarkable town its survivors' founded after emancipation, and the complicated legacy their descendants carry with them to this day—by the journalist who discovered the ship's remains. Fifty years after the Atlantic slave trade was outlawed, the *Clotilda* became the last ship in history to bring enslaved Africans to the United States. The ship was scuttled and burned on arrival to hide the wealthy perpetrators to escape prosecution. Despite numerous efforts to find the sunken wreck, *Clotilda* remained hidden for the next 160 years. But in 2019, journalist Ben Raines made international news when he successfully concluded his obsessive quest through the swamps of Alabama to uncover one of our nation's most important historical artifacts. Traveling from Alabama to the ancient African kingdom of Dahomey in modern-day Benin, Raines recounts the ship's perilous journey, the story of its rediscovery, and its

complex legacy. Against all odds, Africatown, the Alabama community founded by the captives of the *Clotilda*, prospered in the Jim Crow South. Zora Neale Hurston visited in 1927 to interview Cudjo Lewis, telling the story of his enslavement in the New York Times bestseller *Barracoon*. And yet the haunting memory of bondage has been passed on through generations. *Clotilda* is a ghost haunting three communities—the descendants of those transported into slavery, the descendants of their fellow Africans who sold them, and the descendants of their fellow American enslavers. This connection binds these groups together to this day. At the turn of the century, descendants of the captain who financed the *Clotilda*'s journey lived nearby—where, as significant players in the local real estate market, they disenfranchised and impoverished residents of Africatown. From these parallel stories emerges a profound depiction of America as it struggles to grapple with the traumatic past of slavery and the ways in which racial oppression continues to this day. And yet, at its heart, *The Last Slave Ship* remains optimistic—an epic tale of one community's triumphs over great adversity and a celebration of the power of human curiosity to uncover the truth about our past and heal its wounds.

The Emigrant's Guide to the Western and Southwestern States and Territories William Darby 1818

Alabama Getaway Allen Tullos 2011-03-15 In *Alabama Getaway* Allen Tullos explores the recent history of one of the nation's most conservative states to reveal its political imaginary—the public shape of power, popular imagery, and individual opportunity. From Alabama's largely ineffectual politicians to its miserly support of education, health care, cultural institutions, and social services, Tullos examines why the state appears to be stuck in repetitive loops of uneven development and debilitating habits of judgment. The state remains tied to fundamentalisms of religion, race, gender, winner-take-all economics,

and militarism enforced by punitive and defensive responses to criticism. Tullos traces the spectral legacy of George Wallace, ponders the roots of anti-egalitarian political institutions and tax structures, and challenges Birmingham native Condoleezza Rice's use of the civil rights struggle to justify the war in Iraq. He also gives due coverage to the state's black citizens who with a minority of whites have sustained a movement for social justice and democratic inclusion. As Alabama competes for cultural tourism and global industries like auto manufacturing and biomedical research, Alabama Getaway asks if the coming years will see a transformation of the "Heart of Dixie."

Amazing Alabama 2017-11 A collection of facts about the state of Alabama.

The 50 States: Activity Book Gabrielle Balkan 2016-06-07 Pack your bags and take the journey of a lifetime with this fun-filled activity book packed with maps, wildlife, people and places unique to America's 50 states. Eden Rise Robert Jeff Norrell 2012-11-01 In *Eden Rise* Tom McKee, a white college freshman, returns to his home in the Alabama Black Belt in the summer of 1965 and becomes embroiled in a civil-rights conflict that divides his family, his town, and his own identity. His wealthy and powerful family is not prepared for the shocks that have followed the racial quake of the Selma March a few months earlier. Tom's black college friend accompanies him home and gets caught in racial violence. Coming to his friend's defense, Tom earns the enmity of segregationist

neighbors. He feels both the hot anger of his father for his racial nonconformity and the determined defense of his mother and grandmother, as he witnesses the corrosive effects of the turmoil on his parents' marriage. Attempting to rescue him are a cousin he never knew and a wily old lawyer who meet dangers and legal challenges that force Tom to confront the truth of his legacy.

The Negro Motorist Green Book Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

[The Cumulative Book Index](#) 1999

[The Confederados](#) Cyrus B. Dawsey 1995 Of all the colonies founded by former Confederates in Latin America, the most important was established by William Norris at Americana in southeastern Brazil. For 125 years the people in Americana have held on to their language and customs, while prospering within and contributing to the larger Brazilian economy and society. The original settlers came from Alabama, Texas, Louisiana, Georgia, and South Carolina, and some of them returned home for visits from time to time. Much has been written about these people, but there has been relatively little scholarly inquiry into the historical context and the events of the migration itself, the cultural impact that these confederados exerted on their host country, and the ways in which the original settlers and their descendants fit into the larger Brazilian society. Most immigrant nationalities arriving in Brazil were quickly absorbed by the surrounding culture. Although the Confederates numbered but a few thousand and appeared earlier than

most of the groups from other nations, they maintained distinctive traits, and many of their descendants still speak English as a first language. The editors provide an excellent scholarly examination of the confederados that is unique in its approach. This volume focuses on the Norris settlement, near present-day Americana, and makes clear the ways in which the Americans influenced Brazilian culture beginning in the 1860s and continuing to the present.

Experience what Las Vegas was like in 1865, 1905, what lies beneath the waters of Lake Mead, and what goes on in the vast public lands around the city.

The Lost History of the New Madrid Earthquakes Conevery Bolton Valencius 2013-09-25 From December 1811 to February 1812, massive earthquakes shook the middle Mississippi Valley, collapsing homes, snapping large trees midtrunk, and briefly but dramatically reversing the flow of the continent's mightiest river. For decades, people puzzled over the causes of the quakes, but by the time the nation began to recover from the Civil War, the New Madrid earthquakes had been essentially forgotten. In *The Lost History of the New Madrid Earthquakes*, Conevery Bolton Valencius remembers this major environmental disaster, demonstrating how events that have been long forgotten, even denied and ridiculed as tall tales, were in fact enormously important at the time of their occurrence, and continue to affect us today. Valencius weaves together scientific and historical evidence to demonstrate the vast role the New Madrid earthquakes played in the United States in the early

nineteenth century, shaping the settlement patterns of early western Cherokees and other Indians, heightening the credibility of Tecumseh and Tenskwatawa for their Indian League in the War of 1812, giving force to frontier religious revival, and spreading scientific inquiry. Moving into the present, Valencius explores the intertwined reasons—environmental, scientific, social, and economic—why something as consequential as major earthquakes can be lost from public knowledge, offering a cautionary tale in a world struggling to respond to global climate change amid widespread willful denial. Engagingly written and ambitiously researched—both in the scientific literature and the writings of the time—The Lost History of the New Madrid Earthquakes will be an important resource in environmental history, geology, and seismology, as well as history of science and medicine and early American and Native American history.

The Alabama Journey State History And Geography ebook download or read online. In today digital age, eBooks have become a staple for both leisure and learning. The convenience of accessing The Alabama Journey State History And Geography and various genres has transformed the way we consume literature. Whether you are a voracious reader or a knowledge seeker, read The Alabama Journey State History And Geography or finding the best eBook that aligns with your interests and needs is crucial. This article delves into the art of finding the perfect eBook and explores the platforms and strategies to ensure an enriching reading experience.
