We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

The American State Constitutional Tradition John J. Dinan 2006 For too long, the American constitutional tradition has been defined solely by the U.S. Constitution drafted in 1787. Yet constitutional debates at the state level open a window on how Americans, in different places and at different times, have chosen to govern themselves. From New Hampshire in 1776 to Louisiana in 1992, state constitutional conventions have served not only as instruments of democracy but also as forums for revising federal principles and institutions. In *The American State Constitutional Tradition*, John Dinan shows that state constitutions are much more than mere echoes of the federal document. The first comprehensive study of all 114 state constitutional conventions for which there are recorded debates, his book shows that state constitutional debates in many ways better reflect the accumulated wisdom of American constitution-makers than do the more traditional studies of the federal constitution. Wielding extraordinary command over a mass of historical detail, Dinan clarifies the alternatives considered by state constitution makers and the reasons for the adoption or rejection of various governing principles and institutions. Among other things, he shows that the states are nearly universal in their rejection of the rigid federal model of the constitutional amendment process, favoring more flexible procedures for constitutional change; they often grant citizens greater direct participation in law-making; they have debated and at times rejected the value of bicameralism; and they have altered the veto powers of both the executive and judicial branches. Dinan also shows that, while the Founders favored a minimalist design and focused exclusively on protecting individuals from government action, state constitution makers have often adopted more detailed constitutions, sometimes specifying positive rights that depend on government action for their enforcement. Moreover, unlike the federal constitution, state constitutions often contain provisions dedicated to the formation of citizen character, ranging from compulsory schooling to the regulation of gambling or liquor. By integrating state constitution making with the federal constitutional tradition, this path-breaking work widens and deepens our understanding of the principles by which we've chosen to govern ourselves.

The Constitution of the United States of America Mark Tushnet 2015-08-27 This is the second edition of Professor Tushnet's short critical introduction to the history and current meaning of the United States' Constitution. It is organized around two themes: first, the US Constitution is old, short, and difficult to amend. Second, the Constitution creates a structure of political opportunities that allows political actors, including political parties, to pursue the preferred policy goals even to the point of altering the very

structure of politics. Deploying these themes to examine the structure of the national government, federalism, judicial review, and individual rights, the book provides basic information about, and deeper insights into, the way the US constitutional system has developed and what it means today.

Essentials Of The American Constitution Charles H. Sheldon 2002 Examines the five closely integrated components which make up the Constitution's fundamental law to show how the components more often than not work together, assisting, explaining and reinforcing one another.

America's Unwritten Constitution Akhil Reed Amar 2012-09-11 Despite its venerated place atop American law and politics, our written Constitution does not enumerate all of the rules and rights, principles and procedures that actually govern modern America. The document makes no explicit mention of cherished concepts like the separation of powers and the rule of law. On some issues, the plain meaning of the text misleads. For example, the text seems to say that the vice president presides over his own impeachment trial -- but surely this cannot be right. As esteemed legal scholar Akhil Reed Amar explains in *America's Unwritten Constitution*, the solution to many constitutional puzzles lies not solely within the written document, but beyond it -- in the vast trove of values, precedents, and practices that complement and complete the terse text. In this sequel to *America's Constitution: A Biography*, Amar takes readers on a tour of our nation's unwritten Constitution, showing how America's foundational document cannot be understood in textual isolation. Proper constitutional interpretation depends on a variety of factors, such as the precedents set by early presidents and Congresses; common practices of modern American citizens; venerable judicial decisions; and particularly privileged sources of inspiration and guidance, including the Federalist papers, William Blackstone's *Commentaries on the Laws of England*, the Northwest Ordinance of 1787, Lincoln's Gettysburg Address, and Martin Luther King, Jr.'s "I Have a Dream" speech. These diverse supplements are indispensable instruments for making sense of the written Constitution. When used correctly, these extra-textual aids support and enrich the written document without supplanting it. An authoritative work by one of America's preeminent legal scholars, *America's Unwritten Constitution* presents a bold new vision of the American constitutional system, showing how the complementary relationship between the Constitution's written and unwritten components is one of America's greatest and most enduring strengths.

Encyclopedia of the American Constitution 1990

America's Constitution Akhil Reed Amar 2012-02-29 In America's Constitution, one of this era's most accomplished constitutional law scholars, Akhil Reed Amar, gives the first comprehensive account of one of the world's great political texts. Incisive, entertaining, and occasionally controversial, this "biography" of America's framing document explains not only what the Constitution says but also why the Constitution says it. We all know this much: the Constitution is neither immutable nor perfect. Amar shows us how the story of this one relatively compact document reflects the story of America more generally. (For example, much of the Constitution, including the glorious-sounding "We the People," was lifted from existing American legal texts, including early state constitutions.) In short, the Constitution was as much a product of its environment as it was a product of its individual creators' inspired genius. Despite the Constitution's flaws, its role in guiding our republic has been nothing short of amazing. Skillfully placing the document in the context of late-eighteenth-century American politics, *America's Constitution* explains, for instance, whether there is anything in the Constitution that is unamendable; the reason America adopted an electoral college; why a president must be at least thirty-five years old; and why--for now, at least--only those citizens

who were born under the American flag can become president. From his unique perspective, Amar also gives us unconventional wisdom about the Constitution and its significance throughout the nation's history. For one thing, we see that the Constitution has been far more democratic than is conventionally understood. Even though the document was drafted by white landholders, a remarkably large number of citizens (by the standards of 1787) were allowed to vote up or down on it, and the document's later amendments eventually extended the vote to virtually all Americans. We also learn that the Founders' Constitution was far more slavocratic than many would acknowledge: the "three fifths" clause gave the South extra political clout for every slave it owned or acquired. As a result, slaveholding Virginians held the presidency all but four of the Republic's first thirty-six years, and proslavery forces eventually came to dominate much of the federal government prior to Lincoln's election. Ambitious, even-handed, eminently accessible, and often surprising, America's Constitution is an indispensable work, bound to become a standard reference for any student of history and all citizens of the United States.

The Constitution of the United States of America and Selected Writings of the Founding Fathers 2012 This leatherbound collection of classic works traces the founding of America, from the birth of the nation in the late 1760s to the creation of a more perfect union at the end of the early 1800s. It celebrates the pursuit of life, liberty and justice and the freedoms that define America through notable documents as well as significant pieces, writings and speeches by famous figures and the founding fathers commenting on historic events. This volume includes the full texts of *On Civil War* by Benjamin Franklin, *Common Sense* by Thomas Paine, *The Declaration of Independence* and many more. A beautiful addition to any home library, the bonded-leather edition also features a satin-ribbon bookmark, distinctive stained edging and decorative endpapers.

Constitutionalism and the Rule of Law Maurice Adams 2017-02-02 Rule of law and constitutionalist ideals are understood by many, if not most, as necessary to create a just political order. Defying the traditional division between normative and positive theoretical approaches, this book explores how political reality on the one hand, and constitutional ideals on the other, mutually inform and influence each other. Seventeen chapters from leading international scholars cover a diverse range of topics and case studies to test the hypothesis that the best normative theories, including those regarding the role of constitutions, constitutionalism and the rule of law, conceive of the ideal and the real as mutually regulating.

Colonial Origins of the American Constitution Donald S. Lutz 1998 Presents 80 documents selected to reflect Eric Voegelin's theory that in Western civilization basic political symbolizations tend to be variants of the original symbolization of Judeo-Christian religious tradition. These documents demonstrate the continuity of symbols preceding the writing of the Constitution and all contain a number of basic symbols such as: a constitution as higher law, popular sovereignty, legislative supremacy, the deliberative process, and a virtuous people. US Constitution Founding Fathers 2016-08-03 It is one of the most important documents in the history of mankind. The United States Constitution is the supreme law of the United States of America. Every citizen should have a copy of these words. This edition provides a clear, easy-to-read format with room for notes. Included in this volume are: *The Constitution of the United States* *The Bill of Rights* and all Amendments *The Declaration of Independence* *The Articles of Confederation* *The U.S. Constitution* lays out the national frame of government. Its first three articles establish the doctrine of the separation of powers, where the federal government is divided into three branches: the legislative, the executive, and the judicial. Articles Four, Five and Six establish principles of federalism, describing the rights and responsibilities of state governments and of the states in relationship to the federal government. Article Seven establishes the procedure used by the thirteen States to ratify it the Constitution. Since the US Constitution came into force in 1789, it has been amended twenty-seven times. In general, the first ten amendments, known collectively as the Bill of Rights, offer specific protections of individual liberty and justice and place restrictions on the powers of government. Most of the seventeen later amendments expand individual civil rights protections. Others address issues related to federal authority or modify government processes and procedures. At seven articles and twenty-seven amendments, it is the shortest written constitution in force. [World War I and the American Constitution](#) William G. Ross 2017-02-27 "This book will explore the political, economic, and social forces that generated such rapid changes in traditional understandings of the

constitutional relationships between the federal and state governments and their citizens"--

The Federalist Papers Alexander Hamilton 2009-04-28 This authoritative edition of the complete texts of the Federalist Papers, the Articles of Confederation, the U.S. Constitution, and the Amendments to the U.S. Constitution features supporting essays in which leading scholars provide historical context and analysis. An introduction by Ian Shapiro offers an overview of the publication of the Federalist Papers and their importance. In three additional essays, John Dunn explores the composition of the Federalist Papers and the conflicting agendas of its authors; Eileen Hunt Botting explains how early advocates of women's rights, most prominently Mercy Otis Warren, Judith Sargent Murray, and Charles Brockden Brown, responded to the Federalist-Antifederalist debates; and Donald Horowitz discusses the Federalist Papers from the perspective of recent experiments with democracy and constitution-making around the world. These essays both illuminate the original texts and encourage active engagement with them.

[The U.S. Constitution](#) Ray Raphael 2017-10-31 Politicians come and go, but the Constitution stands as the supreme law of the land. Setting forth the workings of our democracy, it is the bedrock document from which we derive our policies on topics as diverse and galvanizing as immigration, gun ownership, voting rights, taxation, policing, civil liberties, and war. In this indispensable edition, acclaimed historian and Constitutional expert Ray Raphael guides us through the origins, impact, and current relevance of the original text and all twenty-seven amendments. Here is the key historical context for issues in the news today—from the Electoral College to Washington gridlock, from peaceful protests to executive power. Thoughtful and nuanced, lively and highly readable, this annotated Constitution is for all of us to read and refer to—the ultimate political fact-checking source for every American.

[The Constitution of the United States of America, with the Bill of Rights and All of the Amendments; The Declaration of Independence; and the Articles of Confederation](#) Thomas Jefferson 2014-08-12 The most important documents of the United States of America are collected in this easy-to-read volume, which includes the Constitution of the United States of America, with the Bill of Rights and all of the Amendments; *The Declaration of Independence*; and the Articles of Confederation. Every United States citizen should have a copy of this important book.

The People's Constitution John F. Kowal 2021-09-07 The story of how the American people have taken an imperfect constitution—the product of compromises and an artifact of its time—and made it more democratic Who wrote the Constitution? That's obvious, we think: fifty-five men in Philadelphia in 1787. But much of the Constitution was actually written later, in a series of twenty-seven amendments enacted over the course of two centuries. The real history of the Constitution is the astonishing story of how subsequent generations have reshaped our founding document amid some of the most colorful, contested, and controversial battles in American political life. It's a story of how We the People have improved our government's structure and expanded the scope of our democracy during eras of transformational social change. *The People's Constitution* is an elegant, sobering, and masterly account of the evolution of

American democracy. From the addition of the Bill of Rights, a promise made to save the Constitution from near certain defeat, to the post-Civil War battle over the Fourteenth Amendment, from the rise and fall of the "noble experiment" of Prohibition to the defeat and resurgence of an Equal Rights Amendment a century in the making, *The People's Constitution* is the first book of its kind: a vital guide to America's national charter, and an alternative history of the continuing struggle to realize the Framers' promise of a more perfect union.

The American Constitution as it Protects Private Rights Frederic Jesup Stimson 1923

American Epic Garrett Epps 2013-09-19 "The United States is the only nation in the world in which political leaders, judges and soldiers all swear allegiance not to a king or a people but to a document, the Constitution. The Constitution today, however, is much revered but little read. . Readers of AMERICAN EPIC will never think of the Constitution in quite the same way again. Garrett Epps, a legal scholar who is also a journalist and writer of prize-winning fiction, takes readers on a literary tour of the Constitution, finding in it much that is interesting, puzzling, praiseworthy, and sometimes hilarious. Reading the Constitution like a literary work yields a host of meanings that shed new light on what it means to be an American"--

The Declaration of Independence & United States Constitution - Including Bill of Rights and Complete Amendments George Washington 2017-02-10 This collection is an essential reading for all those who wish to learn about the creation of the American nation. It is comprised of the most important legal documents in early American history which are considered instrumental to its founding and philosophy: The United States Declaration of Independence, The Constitution and Bill of Rights. Also included - The Federalist Papers and Inaugural Speeches from the first three American presidents - our Founding Fathers. Their words provide additional insights on how the American identity was shaped. Discover the real roots of the present day Government. Table of Contents: Declaration of Independence (1776) U.S. Constitution (1787) Bill of Rights (1791) Amendments (1792-1991) The Federalist Papers (1787-1788) Inaugural Speeches: George Washington (1789, 1793) John Adams (1797) Thomas Jefferson (1801, 1805)

The U.S. Constitution for Everyone Jerome B. Agel 1991-03-21 History comes alive in this illustrated guide to the Constitution and all 27 Amendments. The Constitution has been in the news a lot recently. But most of us could probably use a refresher on this founding document of America--you can probably name the first and second amendments, but what about the 11th, or the 22nd? And what does all of that formal political language actually mean for us today? The U.S. Constitution for Everyone answers these questions and more, like: - How does impeachment work, anyway? - How long is a Senator's term? - What is covered by "freedom of speech"? - What are "emoluments"? - How exactly does a bill become a law? This book makes understanding your rights easy with clear explanations of the complete text of the U.S. Constitution, as well as all 27 Amendments, alongside fascinating historical facts and explanations. A must-read for students, curious citizens, and everyone who'd like to know more about the supreme laws of our nation.

A Brilliant Solution Carol Berkin 2002 Revisiting all the original documents and using her deep knowledge of eighteenth-century history and politics, Carol Berkin takes a fresh look at the men who framed the Constitution, the issues they faced, and the times they lived in. Berkin transports the reader into the hearts and minds of the founders, exposing their fears and their limited expectations of success.

Individual Rights and the American Constitution Douglas W. Kmiec 2004

American constitutions: The republics of Central America: Guatemala; Salvador; Nicaragua; Costa Rica; Honduras; Panama. 1906 International Bureau of the American Republics 1907

Our Secret Constitution George P. Fletcher 2003-01-16 Americans hate and distrust their government. At the same time, Americans love and trust their government. These contradictory attitudes are resolved by Fletcher's novel interpretation of constitutional history. He argues that we have two constitutions--still living side by side--one that caters to freedom and fear, the other that satisfied our needs for security and social justice. The first constitution came into force in 1789. It stresses freedom, voluntary association, and republican elitism. The second constitution begins with the Gettysburg Address and emphasizes equality, organic nationhood, and popular democracy. These radical differences between our two constitutions explain our ambivalence and self-contradictory attitudes toward government. With September 11 the second constitution--which Fletcher calls the Secret Constitution--has become ascendant. When America is under threat, the nation cultivates its solidarity. It overcomes its fear and looks to government for protection and the pursuit of social justice. Lincoln's messages of a strong government and a nation that must "long endure" have never been more relevant to American politics. "Fletcher's argument has intriguing implications beyond the sweeping subject of this profoundly thought-provoking book."--The Denver Post

The Constitution of the United States of America Mark Tushnet 2015-08-27 This is the second edition of Professor Tushnet's short critical introduction to the history and current meaning of the United States' Constitution. It is organised around two themes: first, the US Constitution is old, short, and difficult to amend. Second, the Constitution creates a structure of political opportunities that allows political actors, including political parties, to pursue the preferred policy goals even to the point of altering the very structure of politics. Deploying these themes to examine the structure of the national government, federalism, judicial review, and individual rights, the book provides basic information about, and deeper insights into, the way the US constitutional system has developed and what it means today.

How Democratic Is the American Constitution? Robert A. Dahl 2003-11-10 In this provocative book, one of our most eminent political scientists questions the extent to which the American Constitution furthers democratic goals. Robert Dahl reveals the Constitution's potentially antidemocratic elements and explains why they are there, compares the American constitutional system to other democratic systems, and

explores how we might alter our political system to achieve greater equality among citizens. In a new chapter for this second edition, he shows how increasing differences in state populations revealed by the Census of 2000 have further increased the veto power over constitutional amendments held by a tiny minority of Americans. He then explores the prospects for changing some important political practices that are not prescribed by the written Constitution, though most Americans may assume them to be so.

The Complete Idiot's Guide to the U.S. Constitution Timothy Harper 2007-10-02 The "living" document that changed the world. One of the most revered, imitated, and controversial government documents in the world, the U.S. Constitution serves as the foundation for the American government and shapes the lives of Americans every day. But how many know its history and the impact it's had on American laws and practices throughout history? This guide serves as the most current and accessible handbook to this all-important document. -Covers the document itself, as well as controversial interpretations and decisions
Download a sample chapter.

The Words That Made Us Akhil Reed Amar 2021-05-04 A history of the American Constitution's formative decades from a preeminent legal scholar When the US Constitution won popular approval in 1788, it was the culmination of thirty years of passionate argument over the nature of government. But ratification hardly ended the conversation. For the next half century, ordinary Americans and statesmen alike continued to wrestle with weighty questions in the halls of government and in the pages of newspapers. Should the nation's borders be expanded? Should America allow slavery to spread westward? What rights should Indian nations hold? What was the proper role of the judicial branch? In *The Words that Made Us*, Akhil Reed Amar unites history and law in a vivid narrative of the biggest constitutional questions early Americans confronted, and he expertly assesses the answers they offered. His account of the document's origins and consolidation is a guide for anyone seeking to properly understand America's Constitution today.
