Rural Inventions Sarah Farmer 2020-02-19 At the close of the twentieth century, even as globalization spurred the growth of megacities worldwide, inhabiting the French countryside had become an internationally-shared fantasy and practice. Accounts of moving into old farmhouses were bestsellers, and houses and barns built by peasants had been renovated as second homes throughout the rural hinterland. Such developments, Sarah Farmer argues, did not simply stem from nostalgia for a rural past or a desire to invest in real estate. Rather, they defined new versions of the rural that emerge in post-agrarian societies. In post-World War II France, cutting-edge technological modernization and explosive economic growth uprooted rural populations and eroded the village traditions of a largely peasant nation. And yet, this book argues, rural France did not vanish in the sweeping transformations of the 1950s and 1960s. The French responded to the collapse of peasant society and threats to cherished landscapes by devising new ways of inhabiting the countryside, making them the sites of change and adaptation. In addition to the rise of restored peasant houses as second residences, *Rural Inventions* explores the utopian experiments in rural communes and in "going back to the land"; environmentalism; the extraordinary success of peasant autobiographies; photography; and other representations through which the French revalorized rural life and landscapes. The peasantry as a social class may have died out, but the countryside persisted, valued as a site not only for agriculture but increasingly for sport and leisure, tourism, social and political engagement, and a natural environment worth protecting. The postwar French state and the nation's rural and urban inhabitants, Sarah Farmer eloquently shows, remade the French countryside in relation to the city and to the world at large, not only invoking traditional France but also creating a vibrant and evolving part of the France yet to come.

Incurable and Intolerable Jason Szabo 2009-05-08 Terminal illness and the pain and anguish it brings are experiences that have touched millions of people in the past and continue to shape our experience of the present. Hospital machines that artificially support life and monitor vital signs beg the question: Is there not anything that medical science can offer as solace? *Incurable and Intolerable* looks at the history of incurable illness from a variety of perspectives, including those of doctors, patients, families, religious counsel, and policy makers. This compellingly documented and well-written history illuminates the physical, emotional, social, and existential consequences of chronic disease and terminal illness, and offers an original look at the world of palliative medicine, politics, religion, and charity. Revealing the ways in which

history can shed new light on contemporary thinking, Jason Szabo encourages a more careful scrutiny of today's attitudes, policies, and practices surrounding "imminent death" and its effects on society.

The Brothers Karamazov: A New Translation by Michael R. Katz Fyodor Dostoevsky 2023-07-25

"Lively, fast-flowing.... the voiciest translation of the novel thus far. [Katz] writes at the fever pitch of speech, unleashing the speed and the chaos of the original." —Jennifer Wilson, *The New Yorker* A monumental new translation—the first in more than twenty years—of Russia's greatest family drama, rendered with all the passion, humor, and soul of the original. Dostoevsky's final, greatest novel, *The Brothers Karamazov*, paints a complex and richly detailed portrait of a family tormented by its extraordinarily cruel patriarch, Fyodor Pavlovich, whose callous decisions slowly decimate the lives of his sons—the eponymous brothers Karamazov—and lead to his violent murder. In the aftermath of the killing, the brothers contend with dilemmas of honor, faith, and reason as the community closes in on the murderer in their midst. Acclaimed translator Michael R. Katz renders this masterpiece's nuanced and evocative storytelling in a vibrant, signature prose style that captures all the power of Dostoevsky's original—the clever humor, the rich emotion, the passion and the turmoil—and that will captivate and unsettle a new generation of readers.

From the Farm to the Table Gary Holthaus 2014-04-23 A portrait of the realities of agricultural life in today's world, based on interviews with more than forty farm families. In this book, dozens of farm families from America's heartland detail the practices and values that relate to their land, work, and communities. Their stories reveal that those who make their living in agriculture—despite stereotypes of provincialism perpetuated by the media—are savvy to the influence of world politics on local issues. Gary Holthaus demonstrates how outside economic, governmental, legal, and business developments play an increasingly influential, if not controlling, role in every farmer's life. The swift approval of genetically modified crops by the federal government, the formation of huge agricultural conglomerates, and the devastating environmental effects of chemical fertilizers, pesticides, and herbicides are just a few issues buffeting family farms. *From the Farm to the Table* explores farmers' experiences to offer a deeper understanding of how we can create sustainable and vibrant land-based communities by adhering to fundamental agrarian values. "Tells the story of modern agriculture through engaging interviews with men and women who make a living farming in southeastern Minnesota. In a tone reminiscent of Wendell Berry's *A Place on Earth*, he examines the far-reaching effects of genetically modified organisms, free-trade agreements that nurture 'transnational corporate profit,' dependence on fossil fuel-derived chemicals, and the toll all this has taken on the land and farmers." —*Library Journal*
