Rendering to God and Caesar

Mark Caleb Smith 2017-12-20 You are holding in your hands a piece of the counterculture. The recent tendency in the academic world has been away from primary sources and toward textbooks. Being a fairly traditional lot, we find that unacceptable. We focus on the "big ideas" that have shaped American government. There are many ways to gain exposure to these ideas, but in our opinion, none are better than actually reading the primary sources that first articulated them. That is why you will see many founding

documents, Supreme Court cases, and momentous speeches within these pages. This collection will whet your appetite for exploring our rich American governmental heritage. Our hope is that this may be the beginning of a lifelong interest in the basis of our American government—how we got where we are today, and how we are to proceed from here!

actions fall within a major national political forum. New to the Seventh Edition Nine new and updated essays encourage you to reflect on the continuing debates over the polarization of the American electorate and Congress, the role of social media and “fake news” in influencing public views of politicians and issues, the fragile Trump coalition, the efficacy of polling in tracking public opinion, and other issues more relevant than ever in the wake of the 2016 elections. Additional essays challenge you to think more carefully about alternative institutions and political arrangements. The new essays present institutions of majority rule, the nature of racial discrimination, and the proper role of the court as less settled issues that provide students an opportunity to think through (and discuss) their views on the future direction of American civic life. Each selection is artfully framed by Kernell and Smith’s contextual headnotes to make them appropriate for classroom use. Original readings written

specifically for the volume give the book a coherent treatment of the performance of U.S. political institutions.

From Many, One Richard C. Sinopoli 1996-12-30 Unique among readers in American political and social thought, *From Many, One* is a broad and balanced anthology that explores the problem of diversity and American political identity throughout American history. From the classic texts of the American political tradition to diverse minority writings, this book offers a wide spectrum of ideas about identity, gender, immigration, race, and religion, and addresses how these issues relate to the concept of national unity. Covering the gamut of viewpoints from majority to minority, from conservative to radical, from

assimilationist to separatist, the authors range from the Founding Fathers to Frederick Jackson Turner, from Abigail Adams to bell hooks and Catharine MacKinnon; from Abraham Lincoln to Malcolm X; from Roger Williams to Ralph E. Reed. Sinopoli's extensive introductory and concluding essays set the context for and draw out the implications of the fifty readings. The conclusion includes case studies of three minority groups—homosexuals, Mexican-Americans, and Chinese-Americans—to illustrate further the themes of the volume. Brief introductions to each reading and to each of the five sections provide background information. In examining one of the central questions of American public life—the issue of national diversity—*From Many, One* will be a useful text for courses in American political thought, sociology, American Studies, and American history.

Senator Rayner and Representative Towne, directing themselves against the expansion of the executive power, will serve to bring out clearly the matter in controversy. Allowance being made in all Congressional speeches for partisan bias, the attacks of the opposition will often bring out most clearly new political developments. Senator Rayner's speech was made in the debate upon the President's action with respect to San Domingo. Mr. Towne was speaking on party politics during the discussion of the Consular and Diplomatic Appropriation Bill. For a good general treatment of this subject see Ford, Rise and Growth of Am. Politics, 275.]

FROM A SPEECH OF SENATOR RAYNER¹ Now let us look for a moment at the result of the President's construction of his prerogative. A new sect of political scribes have commenced to edit a revised edition of the Constitution. They call it the unwritten Constitution. They are framing an apocryphal

collection of epistles and are promulgating their heresy from academic chairs and lecture platforms. The President is the prophet of this new creed and the Messiah of this strange hallucination. They do not propose to add any additional chapters to the original manuscript, but they insist that under the general-welfare clause, which is simply a repetition of the phrase that was used in the Articles of Confederation, th...
