This book examines how intangible aspects of international relations - including identity, memory, representation, and symbolic perception - have helped to shape the development and contribute to the endurance of the Anglo-American special relationship.

Challenging traditional interpretations of US-UK relations and breaking new ground with fresh analyses of cultural symbols, discourses, and ideologies, this volume fills important gaps in our collective understanding of the special relationship's operation and exposes new analytical spaces in which we can re-evaluate its strengths and weaknesses. Designed to breathe new life into old debates about the relationship's purported specialness, this book offers a multidisciplinary exploration of literary representations, screen representations, political representations, representations in memory, and the influence of cultural connections and constructs which have historically animated Anglo-American interaction.

**B-17 MEMORIES** T/Sgt. James Lee Hutchinson, Ed.S. 2014-05-22 The Memphis Belle, completed 25 missions and became the symbol of Eighth Air Force success in the air war over Europe. Its national tour rallied support and encouraged citizens enduring rationing and sacrifices for victory. Heavy bomber aircrews proved their value with precision bombing. My writing is based on memories, diaries and interviews of other veterans and my teenage experiences as an Eighth Air Force B-17 radio/gunner on twenty

combat missions with the 490th Bomb Group (H). This fourth book presents short stories of boys on B-17 Flying Fortress crews flying deadly missions to destroy German and Italian military targets. Twenty-six thousand airmen died and thousands more were wounded. The sky was our arena and we paved the way for Infantry and Armored Divisions slogging through heat, rain or snow to preserve our freedom. Many B-17 gunners were teenagers who enlisted or were drafted, trained and sent into combat before they could legally vote or buy a drink. They saved our freedom and came home to build the USA into the most powerful nation in the world. I self-publish because I am 89 and my time is limited. I thank God that I have been able to record more than 350 stories of my generation. *First Ladies and American Women* Jill Abraham Hummer 2017-03-17 Unelected, but expected to act as befits her "office," the first lady has what Pat Nixon called "the hardest unpaid job in the world." Michelle Obama championed military families with the program Joining Forces. Four decades earlier Pat Nixon traveled to Africa as the nation's official representative. And nearly four decades before that, Lou Hoover took to the airwaves to solicit women's help in unemployment relief. Each first lady has, in her way, been intimately linked with the roles, rights, and responsibilities of American women. Pursuing this connection, *First Ladies and American Women* reveals how each first lady from Lou Henry Hoover to Michelle Obama has reflected and responded to trends that marked and unified her time. Jill Abraham Hummer

divides her narrative into three distinct epochs. In the first, stretching from Lou Hoover to Jacqueline Kennedy, we see the advent of women's involvement in politics following women's suffrage, as well as pressures on family stability during depression, war, and postwar uncertainty. Next comes the second wave of the feminist movement, from Lady Bird Johnson's tenure through Rosalyn Carter's, when equality and the politics of the personal issues prevailed. And finally we enter the charged political and partisan environment over women's rights and the politics of motherhood in the wake of the conservative backlash against feminism after 1980, from Nancy Reagan to Michelle Obama. Throughout, Hummer explores how background, personality, ambitions, and her relationship to the president shaped each first lady's response to women in society and to the broader political context in which each administration functioned—and how, in turn, these singular responses reflect the changing role of women in American society over nearly a century. Stories from the Mohawk Valley Bob Cudmore 2011-01-09 Nestled in Upstate New York along the banks of the Mohawk River are the many communities of the Mohawk Valley. These villages, towns and cities have unique histories but are inextricably tied together by the waterways that run through them. The mills, railroads and the Erie Canal sustained early growth; the Painted Rocks beautified the landscape; and tales from the local Mohawk Nation still enrich the folklore. Many remarkable individuals have called the Mohawk Valley home, including psychedelic philosopher Benjamin Paul Blood, Queen Libby, the Daiquiris and actor Kirk Douglas. For over a decade, local native Bob Cudmore has documented the interesting, important and unusual stories from the region's past, and he has compiled the best of them here. **For the Strength of Youth** The Church of Jesus Christ of Latter-day Saints 1966 OUR DEAR YOUNG MEN AND YOUNG WOMEN, we have great confidence in you. "Hollywood films are perhaps the most powerful storytellers in American history, and their depiction of race and culture has helped to shape the way people around the world respond to race and prejudice. Over the past one hundred years, films have moved from the radically-prejudiced views of people of color to the depiction of people of color by writers and filmmakers from within those cultures. In the process, we begin to see how films have depicted negative versions of people outside the white mainstream, and how film might become a vehicle for racial reconciliation. Religious traditions offer powerful correctives to our cultural narratives, and this work incorporates both narrative truth-telling and religious truth-telling as we consider race and film and

work toward reconciliation. By exploring the hundred-year period from The Birth of a Nation to Get Out, this work acknowledges the racist history of America, and offers the possibility of hope for the future"--

The controversial story of American invasions throughout history - how the world's superpower came to be what it is today. The Nation's First Monument and the Origins of the American Memorial Tradition Professor Sally Webster 2015-04-28 The commemorative tradition in early American art is considered for the first time in Sally Webster's fascinating study of public monuments and the construction of an American patronymic tradition. Until now, no attempt has been made to create a coherent early history of the carved symbolic language of American liberty and independence. Webster's study provides a new focus on New York City as the eighteenth-century city in which the European tradition of public commemoration was reconstituted as monuments to liberty's heroes.

**Churchill and the Anglo-American Special Relationship** Alan P. Dobson 2017-02-24

This book examines Winston Churchill's role in the creation and development of the Anglo-American special relationship. Drawing together world leading and emergent scholars, this volume offers a critical celebration of Churchill's contribution to establishing the Anglo-American special relationship. Marking

the seventieth anniversary of Churchill's pronouncement in 1946 of that special relationship in his famous Iron Curtain speech, the book provides new insights into old debates by drawing upon approaches and disciplines that have hitherto been marginalised or neglected. The book foregrounds agency, culture, values, ideas and the construction and representation of special Anglo-American relations, past and present. The volume covers two main themes. Firstly, it identifies key influences upon Churchill as he developed his political career, especially processes and patterns of Anglo-American convergence prior to and during World War Two. Second, it provides insights into how Churchill sought to promote a post-war Anglo-American special relationship, how he discursively constructed it and how he has remained central to that narrative to the present day. From this analysis emerges new understanding of the raw material from which Churchill conjured special UK-US relations and of how his conceptualisation of that special relationship has been shaped and re-shaped in the decades after 1946. This book will be of much interest to students of Anglo-American relations, Cold War Studies, foreign policy, international history and IR in general.

**The Funeral Effigies of Westminster Abbey**

Anthony Harvey 2003 Westminster Abbey contains a unique and important group of effigies, some familiar, many little-known, including kings, queens, statesmen and national heroes, ranging in time from the middle ages to the early nineteenth century. They derive from a time when an effigy of the dead monarch, statesman or national hero played an important part in funeral ritual, offering a visible likeness as a focus to the ceremonial of the funeral. This richly illustrated book, which is the first substantial publication on the effigies since 1936, is both a history of the collection and of the origins and development of the funeral effigy, and a full descriptive catalogue of the twenty-one examples in the Abbey. **Allies in Memory** Sam Edwards 2015-03-02  
 Amidst the ruins of postwar Europe, and just as the Cold War dawned, many new memorials were dedicated to those Americans who had fought and fallen for freedom. Some of these monuments, plaques, stained-glass windows and other commemorative signposts were established by agents of the US government, partly in the service of transatlantic diplomacy; some were built by American veterans' groups mourning lost comrades; and some were provided by grateful and grieving European communities. As the war receded, Europe also became the site for other forms of American commemoration: from the sombre and solemn battlefield pilgrimages of veterans, to the political theatre of Presidents, to the production and consumption of commemorative souvenirs. With a specific focus on processes and practices in two distinct regions of Europe - Normandy and East Anglia - Sam Edwards tells a story of postwar Euro-American cultural contact, and of the acts of transatlantic commemoration that this bequeathed.
