**The Moor, the Mason and the Alien** Richard William Smith

2015-09-01 From the book: "Mother Earth had flung the star gates wide open this time. Coming out of the north, a messenger from the galactic community would reignite the fires of insurrection. Crossing the racial and sexual boundaries of lost knowledge and ancient wisdom, his words of sheer defiance would turn the tide against the transnational corporations and unite the ancient defenders of the throne." A visionary synthesis of alien contact, the Moorish Legacy, reincarnation and human origins, *The Moor, The Mason And The Alien* engages the reader with a radically ambitious scope of knowledge and wisdom, putting us on track with a magnificent interstellar experience through the paranormal and extraterrestrial terrains of ancient history, psychology, economics and current affairs. Ranging from the author's personal odyssey to the global issues we all face, Richard Smith serves up "a spiritual insurrection," an epic saga like no other representing the beginning of a new and riveting human adventure, taking the reader on an historical account of a global rebellion that begins with the Sasquatch going head to head with the Greys and transforms into the ancient Moorish Legacy of the Egyptian University System. Rooted in the extraterrestrial, paranormal and metaphysical experiences of the author himself, his path of awakening brings him face to face with an entity known as the Crone, a primordial relic of a much older galactic community. Representing an interstellar collective known as the Sisterhood, the Crone intentionally takes the author on an odyssey of self exploration into the human condition, forcing him to confront the reality of the Ancient Vendetta against humanity. Evolving into the 'Son of the Mother', his journey causes him to become the one person who realizes how to put it together. As the fate of Mother Earth hangs in the balance, the adventure escalates into a battle of wits pitting the Temple of Solomon and the Gene for Passion against the Corporate Titans of Orion in a global movement known as The Human Origins Revolution. The result of twenty years of paranormal experience, psychological analysis and metaphysical study of Earth's solar system and cosmology, *The Moor, The Mason And The Alien* provides a unique, unvarnished and revolutionary perspective on humanity's origins that is introspective, ethereal, apocalyptic and otherworldly all at the same time. RICHARD SMITH is an experienter, author, international speaker and radio host on the topic of UFOs, the Moorish Legacy and related matters. He was born in Tampa, Florida, in 1970. He grew up in Farmingdale, New York, playing baseball, soccer and the piano while studying art, math, science fiction and the cosmos. He earned an Associate's degree in Advertising Art and Design and a Bachelor's degree in Visual Arts and Communication at New York State University. He also received the Certificate of Achievement Award, honored for Outstanding Achievement, at New York State University for his dedicated work with Extraterrestrial Intervention and Alien Abduction Phenomena. He is an alumnus of both Farmingdale and Old Westbury colleges. Since publishing his experiences on the subject of alien contact in 1999, Richard has travelled throughout the U.S. speaking to audiences.

**Alien Superstar** Henry Winkler 2019-10-01 A six-eyed teenage alien refugee becomes a Hollywood star in this hilarious series opener by the bestselling authors of the Hank Zipzer series. When thirteen-year-old Buddy Burger has to flee from his alien planet, he crash lands in an even wilder place: Hollywood, California. But no one is shocked to see a six-eyed alien strolling around the Universal back lot. The tourists just think he's an actor in a supercool alien costume. And the fancy Hollywood

directors take notice too. They cast Buddy in a popular TV show playing (of course) an alien. After a video of his first episode goes viral, he becomes an overnight sensation, and suddenly, his world is filled with adoring fans, rides in glamorous limos, and appearances at all-the-shrimp-you-can-eat red carpet parties! Will Buddy be able to keep his secret when all eyes are on him? Or will the glitz and glam of Hollywood prove too much for this alien superstar? "Alien Superstar has it all . . . action, suspense, and big laughs!" —Jeff Kinney, author of the *Diary of a Wimpy Kid* series "Henry Winkler and Lin Oliver keep us laughing while slipping in a lesson for kids—accept everyone as they are, even if they have suction cups for feet. *Alien Superstar* is a super fun read for middle grades on up." —Jennifer Garner "A funny interstellar adventure that will have readers watching the cosmos for the second book to arrive." —SLJ Review "Winkler and Oliver bring their sharply honed sense of comedy and extensive experience in the television industry to Buddy's antics on the set. . . . This results in an endearingly strange protagonist that will resonate with any kid who has felt like an outsider. A sense of humor and empathy are required for this zany adventure." —Booklist

**The Prometheus Saga** Charles Cornell 2015-09-01 We are not alone. The Prometheus Probe is a human by design and sent by an advanced alien civilization. Prometheus's mission is to report on the development of intelligent life on Earth. It looks human. It walks among us, watches us, and learns from us, without exposing its secret. Through the ages, Prometheus's artificial eyes have observed humanity at its best and its worst. It has seen us rise to challenges and fall into hubris, risk all for the sake of others, and commit unspeakable atrocities. The Probe observes the human condition and reports its findings to its creator. And sometimes, it acts. THE PROMETHEUS SAGA is an anthology, thirteen speculative stories that explore what it means to be human. "The Prometheus Saga" is the premier project of the Alvarium Experiment, a consortium of accomplished and award-winning authors. The thirteen short stories in the saga span the range of the existence of Homo sapiens. Stories from *The Prometheus Saga* recognized in the Florida Writers Association's 2015 Royal Palm Literary Awards: "Lilith" by Antonio Simon, Jr., won 1st Place for Published Short Story. "The Pisces Affair" by Daco Auffenorde, won 3rd Place for Published Short Story. "Manteo" by Elle Andrews Patt, won 3rd Place for Published Novella. "The Strange Case of Lord Byron's Lover" by Parker Francis, won 1st Place in General Category, and was also 1st Runnerup for Published Book of the Year. INTERVIEW WITH THE AUTHORS Q - What is The Prometheus Saga? A - In *The Prometheus Saga*, twelve authors unite to interpret how an alien presence would interact with the human condition over a time period that spans from the dawn of man to the present. The stories cross genres and genders, allowing for entirely different narratives and insights on historical events and the human experience. Q - Where should a reader start when selecting a short story to read in *The Prometheus Saga*? A - Each story is self-contained and can be read in any order. The reader is free to select any of the stories at random to begin

their experience. Each short story has a different setting in history. The book description will explain the time period setting for each particular story. Q - What is this alien probe? A - An alien civilization landed a probe on Earth at the dawn of mankind. This probe, a form of artificial intelligence, can morph into any human form, take on any human identity, either male or female. Its life spans hundreds of thousands of years. Its mission is to report everything it can about us to its home planet. What this humanoid observes and learns over centuries of human existence will be interpreted through each short story in the saga. The alien probe is as mythic as Prometheus, the Greek Titan who was said to have brought fire to mankind.

Alien Hearts Guy de Maupassant 2011-06-08 Alien Hearts was the last book that Guy de Maupassant finished before his death at the early age of forty-three. It is the most original and psychologically penetrating of his several novels, and the one in which he attains a truly tragic perception of the wounded human heart. André Mariolle is a rich, handsome, gifted young man who cannot settle on what to do with himself. Madame de Burne, a glacially dazzling beauty, wants Mariolle to attend her exclusive salon for artists, composers, writers, and other intellectuals. At first Mariolle keeps his distance, but then he hits on the solution to all his problems: caring for nothing in particular, he will devote himself to being in love; Madame de Burne will be his everything. Soon lover and beloved are equally lost within a hall of mirrors of their common devising. Richard Howard's new English translation of this complex and brooding novel—the first in more than a hundred years—reveals the final, unexpected flowering of a great French realist's art.

The Alien Invasion William Henry Wilkins 1892 This book, written by W.H. Wilkins, is about immigration in Great Britain and efforts to restrict it.

*Bowie* Christopher Sandford 2009-08-05 Based on interviews with family members, colleagues, lovers, and the previously silent William Burroughs, this unsparing yet evenhanded biography guides the reader through the many personas, crises, and musical metamorphoses of David Bowie—also known as Davy Jones, the Laughing Gnome, Major Tom, Ziggy Stardust, Aladdin Sane, the Thin White Duke, a drug-addled grandfather of punk, actor, art aficionado, political activist, one of rock's most resonant icons, and a totem of modern pop culture. Nowhere else is the man and musician so convincingly deconstructed and so compellingly humanized.

*Travails with the Alien* Satyajit Ray 2018-04-25 Satyajit Ray was a master of science fiction writing. Through his Professor Shonku stories and other fiction and non-fiction pieces, he explored the genre from various angles. In the 1960s, Ray wrote a screenplay for what would have been the first-of-its-kind sci-fi film to be made in India. It was called The Alien and was based on his own short story "Bonkubabur Bandhu". On being prompted by Arthur C. Clarke, who found the screenplay promising, Ray sent the script to Columbia Pictures in Hollywood, who agreed to back it, and Peter Sellers was approached to play a prominent role. Then started the "Ordeals of the Alien" as Ray calls it, as even after a series of trips to the US, UK and France, the film was never made, and more shockingly, some fifteen years later, Ray watched Steven Spielberg's film Close Encounters of the Third Kind and later E.T.: The Extra-Terrestrial, and realized these bore uncanny resemblances to his script The Alien, including the way the ET was designed! A slice of hitherto undocumented cinema history, Travails with the Alien includes Ray's detailed essay on the project with the full script of The Alien, as well as the original short story on which the screenplay was based. These, presented alongside correspondence between Ray and Peter Sellers, Arthur C. Clarke, Marlon Brando, Hollywood producers who showed interest, and a fascinating essay by the young student at Columbia University's Graduate School of Journalism who broke the Spielberg story, make this book a rare and compelling read on science fiction, cinema and the art of adaptation.

**Blindsight** Peter Watts 2006-10-03 Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelect space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant

genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

**Immigration Laws and Regulations** United States 1904

Alien Identities Deborah Cartmell 1999-03-20 A lively and stimulating look at representations, mutations and adaptations of 'the alien' in literature, film and television. Using notions of the alien and alienation in a broadly defined sense, the contributors cover early science fiction, from the gothic aliens of *Dracula* and H.G. Wells, to the classic fifties Cold War sci-fi movies, such as *War of the Worlds*, twentieth-century reworkings of various 'alien' metaphors, such as the *Fly* movies and the *Alien* series, and comic variations on the theme such as *Mars Attacks*. Moving beyond the conventional genre boundaries of the alien, particular essays look, too, at 'race' as an alien condition, and at the use of illness and disease as a metaphor for alienation in modern film and fiction. *Alien Identities* is a timely, carefully themed and much-needed study of an increasingly popular subject.

**Refusal** Randy Hill 2016-03-29 We should be more cautious in our ongoing search for other intelligent life-forms beyond our own galaxies -- -- one day they may just find us.... If you are a fan of *Star Wars*, then you will surely enjoy reading this thrilling new science-fiction fantasy saga. A hundred years' click in time brings Earth to the edge of human extinction. The alien forces that are on the way here want but one thing - our planet - but without its current inhabitants. *Refusal* is a riveting, epic tale of good versus evil. Out-numbered and out-gunned, Earth has but one chance for survival - its wits. Although the author has created a fictional world, it is a very believable one. The many characters are so diverse - yet lovable, so much so that you will cringe at the thought that some may not survive this ordeal. But, for some, all good things must come to an end.
