Find out about the many roles leaves play in this poetic exploration of leaves throughout the year. Laura Purdie Salas's lyrical, rhyming text and Violeta Dabija's glowing illustrations make simple yet profound observations about seemingly ordinary objects and encourage readers to suggest "what else it can be!" Designing Valve Preamps

for Guitar and Bass Merlin Blencowe 2009

After Effects Francois Lefebvre 2018-10-15 WHAT IS AFTER EFFECTS? One of the most used software Adobe Creative Cloud is probably the most popular collection of softwares amongst creatives around the world. With millions and millions of users, Adobe After Effects might be one of their top programs, mostly used in the Media / Entertainment industry for Motion Graphics, Animation and Visual Effects, and with the ever expanding digital media demands, Adobe After Effects seems unbeatable and the number one go-to program for professionals and enthusiasts. WHO AM I? Everyone I am a motion graphics artist based in New York City, I have over a decade of experience working for major companies and brands such as Google, Amazon, Nike, Marvel, Paypal and WWE among them. My spectrum of expertise spans a wide range of digital/social media, broadcast,

and studio design. But above all I'm a regular daily user of After Effects, which knows the concerns of the After Effects community and wants to help to add to the expansion of this huge, generous and super creative community. WHAT IS EXPRESSION? A simple language Expression is the language that allows to program or link the properties in Adobe After Effects. This coding language is written in ExtendScript, developed by Adobe, and based on the JavaScript coding language. Trying to learn Expression can proved to be a laborious journey for a regular user, not because of the difficulty of the language but because all of the materials to learn it are spread everywhere or just outdated, it can be even more frustrating when the After Effects user has to leave the community to learn coding for After Effects through other coding sources such as JavaScript websites. I experienced this firsthand and when it came to learning Expression, you just can't find a precise answer where to start

or a global approach, this book is exactly what I wish I had found. WHY A BOOK? A missing piece Expression is known, even to the experienced users, as the dark and mysterious place within the After Effects world, animators mainly understand keyframes. When you don't know anything about coding in general, it can look scary and not accessible but believe me Expression is very logical and you just need to know a few terms to be able to write, read or decipher an expression; my goal is to lighten things up and what can seem complex, at the end is a very beautiful and simple tool that will bring harmony in creativity and boost the productivity, definitely a must for any After Effects user. Expression is still a written language so it's still easier to focus by learning it through reading rather than watching a video tutorial. The purpose of this book is to have a reference where to quickly search, learn, and review the terms necessary to use Expression in After Effects: Finally a real guide of

how to learn Expression fast and easy, presented in a modern and minimalist way.

The Boba Book Andrew Chau
2020-04-07 A beautifully photographed and designed cookbook and guide to the cultural phenomenon that is boba, or bubble tea--featuring recipes and reflections from The Boba Guys tea shops. Andrew Chau and Bin Chen realized in 2011 that boba--the milk teas and fruit juices laced with chewy tapioca balls from Taiwan that were exploding in popularity in the States--was still made from powders and mixes. No one in the U.S. was making boba with the careful attention it deserved, or using responsible, high-quality ingredients and global, artisanal inspiration. So they founded The Boba Guys: a chic, modern boba tea shop that has now grown to include fourteen locations across the country, bringing bubble tea to the forefront of modern drinks and bridging cultures along the way. Now, with *The Boba Book*, the Boba Guys will show fans and novices alike how they can

make their (new) favorite drink at home through clear step-by-step guides. Here are the recipes that people line up for--from the classics like Hong Kong Milk Tea, to signatures like the Strawberry Matcha Latte and the coffee-laced Dirty Horchata. For the Boba Guys, boba is Taiwanese, it's Japanese, it's Mexican, it's all that and more--which means it's all-American.

Animals in Translation

Temple Grandin 2009-08-11
With unique personal insight, experience, and hard science, *Animals in Translations* is the definitive, groundbreaking work on animal behavior and psychology. Temple Grandin's professional training as an animal scientist and her history as a person with autism have

given her a perspective like that of no other expert in the field of animal science. Grandin and coauthor Catherine Johnson present their powerful theory that autistic people can often think the way animals think—putting autistic people in the perfect position to translate “animal talk.”

Exploring animal pain, fear, aggression, love, friendship, communication, learning, and even animal genius, Grandin is a faithful guide into their world. *Animals in Translation* reveals that animals are much smarter than anyone ever imagined, and Grandin, standing at the intersection of autism and animals, offers unparalleled observations and extraordinary ideas about both.

Mastering the Core

Teachings of the Buddha

Daniel Ingram 2020-01-20 The very idea that the teachings

can be mastered will arouse controversy within Buddhist circles. Even so, Ingram insists that enlightenment is an attainable goal, once our fanciful notions of it are stripped away, and we have learned to use meditation as a method for examining reality rather than an opportunity to wallow in self-absorbed mind-noise. Ingram sets out concisely the difference between concentration-based and insight (vipassana) meditation; he provides example practices; and most importantly he presents detailed maps of the states of mind we are likely to encounter, and the stages we must negotiate as we move through clearly-defined cycles of insight. Its easy to feel overawed, at first, by Ingram's assurance and ease in the higher levels of consciousness, but consistently he writes as a down-to-earth and compassionate guide, and to the practitioner willing to commit themselves this is a glittering gift of a book. In this new edition of the bestselling

book, the author rearranges, revises and expands upon the original material, as well as adding new sections that bring further clarity to his ideas.

Star Wars: A Scanimation Book
Rufus Butler Seder 2010-05-12
Imagine: the first Star Wars book that actually moves, bringing to life the most memorable scenes from the epic: Obi-Wan battles Darth Maul The Millennium Falcon zooms away from an exploding Death Star Luke rides a galloping Tauntaun, Yoda twirls his green lightsaber, Boba Fett blasts up, up and away! And of course the most memorable scene of all—red and blue lightsabers flashing, Luke and Darth Vader fight the ultimate battle between good and evil. It's a marriage made in a galaxy far, far away: phenomenal Scanimation meets Star Wars, the enduring

epic that's sold \$42 billion in ticket sales and earned the title #1 Boys Action Toy License of all time. Created by Rufus Butler Seder, *Star Wars: A Scanimation Book* presents 12 of the most memorable scenes, in a landscape, i.e., movie format. It's an homage from an artist obsessed with the earliest forms of capturing visual motion to an artist obsessed with the most advanced. But that's not what young fans will care about—this is having pure movie magic in the palm of your hand, to replay again and again.

Santa! Rufus Butler Seder 2013-09-24 Santa Claus is going to town! Marrying the magic of Scanimation with the universally beloved figure of Santa Claus, *Santa!* is a holiday book unlike any other. It presents a Santa that readers have never seen before—acrobatic, playful, a little mischievous, filled with joyful energy. Here's Santa hula-hooping. Santa juggling. Santa doing cartwheels and Santa on a unicycle. Children,

as they did with Gallop!, will want to imitate Santa's irresistibly happy motions. The grown-ups will be unable to stop smiling—it's hard to imagine a cooler character than this jolly St. Nick as he runs, spins, gyrates, backflips, and blows big bubbles.

Scanimation is the technology behind the instant New York Times best-selling series that started with Gallop!, to most recently *The Wizard of Oz*. Author and inventor Rufus Butler Seder continues to refine the Scanimations, with ever more smooth-flowing and detailed moving images—perfectly applied, in this case, to the irresistible figure of Santa Claus.

Timeless Thomas Gene

Barretta 2012-07-17 What do record players, batteries, and movie cameras have in common? All these devices were created by the man known as The Wizard of Menlo Park: Thomas Edison. Edison is most famous for inventing the incandescent lightbulb, but at his landmark laboratories in

Menlo Park & West Orange, New Jersey, he also developed many other staples of modern technology. Despite many failures, Edison persevered. And good for that, because it would be very difficult to go through a day without using one of his life-changing inventions. In this enlightening book, Gene Barretta enters the laboratories of one of America's most important inventors.

A Foodie Afloat Di Murrell

2020-07-28 *A Foodie Afloat* is the story of a cook's journey through France on a barge. Di Murrell takes us on a gentle journey across France; her main preoccupation being to make sure that tasty food arrives on the table each day. As she voyages across the country she shows, through her recipes, how the cuisine changes with the landscape. Whether bought in the market, dug from a lock-keeper's garden or even foraged along the towpath, the food she finds and cooks is always seasonal and local to the region. This book is more than just a

collection of recipes though. It is the result of a life spent on the waterways of Europe. She talks to lock-keepers, skippers of working barges and those, who, like her, find their sustenance on or near the canal. Di's enjoyment of good champagne, foie gras and truffles leads to an eclectic mix of simplicity and sophistication in her cooking. The boating life, though rarely sensational, is full of small events and chance encounters. This is an enticing story of slow boats and slow food. Di makes it come alive, and her combination of travel and recipe book tempts us to give up everything and join her on the waterways of Northern and Central France. *A Foodie Afloat* is the 2020 UK winner of the World Gourmand Cookbook Awards in the Food Tourism category.
