The Iberian-latin American Connection Howard J. Wiarda
1986-12-16

The American Presence in Ulster Francis M. Carroll
2005-12 Alex Voorman, a cerebral thirty-year-old archaeologist, is married to the woman of his dreams -- a beautiful, ambitious botanist named Isabel. When Isabel is killed by a reckless driver, Alex reluctantly consents to donate

her heart. Janet Corcoran, a young, headstrong mother of two and an art teacher at an inner-city school in Chicago, is sick with heart disease. She is on the waiting list for a transplant, but her chances are slim. She watches the Weather Channel, secretly praying for foul weather and car accidents. The day Isabel dies, Janet gets her wish. Flash forward a year. Janet sends Alex a letter. She'd like to learn something about

the woman who saved her life. But Alex isn't interested in talking to the recipient of his dead wife's heart. Since Isabel's accident, he's still grief-stricken. Meanwhile, a local blues musician named Jasper, the man responsible for Isabel's death, attempts to atone for his misdeed. Irreplaceable is the story of what happens after the transplant -- not only to Alex but within the concentric circles of family that spiral outward from him and from Janet. Stephen Lovely takes us vividly inside the lives of these characters to reveal their true intentions -- however misguided -- and gives us a stunning debut novel of loss and love.

The American Idea of England, 1776-1840 Jennifer Clark 2016-04-01 Arguing that American colonists who declared their independence in 1776 remained tied to England by both habit and inclination, Jennifer Clark traces the new Americans' struggle to come to terms with their loss of identity as British, and particularly

English, citizens. Americans' attempts to negotiate the new Anglo-American relationship are revealed in letters, newspaper accounts, travel reports, essays, song lyrics, short stories and novels, which Clark suggests show them repositioning themselves in a transatlantic context newly defined by political revolution. Chapters examine political writing as a means for Americans to explore the Anglo-American relationship, the appropriation of John Bull by American writers, the challenge the War of 1812 posed to the reconstructed Anglo-American relationship, the Paper War between American and English authors that began around the time of the War of 1812, accounts by Americans lured to England as a place of poetry, story and history, and the work of American writers who dissected the Anglo-American relationship in their fiction. Carefully contextualised historically, Clark's persuasive study shows that any attempt to examine what it meant to be

Northern Irish Poetry E.

Kennedy-Andrews 2014-08-18
Through discussion of the ways in which major Northern Irish poets (such as John Hewitt, Seamus Heaney, Michael Longley, Louis MacNeice and Derek Mahon) have been influenced by America, this study shows how Northern Irish poetry overflows national borders, complicating and enriching itself through cross-cultural interaction and hybridity.

Jack the Ripper Shirley Harrison 2003 When the gruesome diaries of James Maybrick were unearthed 10 years ago, the last piece of a century-old puzzle was in place. The discovery offered the strongest evidence yet as to the true identity of Jack the Ripper. It suggests that Maybrick, a Liverpool merchant who, furious with his American wife's infidelity, went

periodically to London to butcher prostitutes who walked the streets close to where he had first seen his wife with her lover. Now, Shirley Harrison presents startling new evidence that Maybrick was also in Austin, Texas at the time of a horrific killing spree—eight murders, all likened to those of the Ripper. Reproducing James Maybrick's chilling diaries in full, *Jack the Ripper: The American Connection* reveals a shocking twist in the tale.

The Israeli-American Connection Michael Brown 1996
The *Israeli-American Connection* examines the ways in which the American experience influenced some of the major leaders of the yishuv, the Jewish settlement in Palestine, during and between the world wars. In six biographical chapters, Michael Brown studies Vladimir Jabotinsky, Chaim Nahman Bialik, Berl Katznelson, Henrietta Szold, Golda Meir, and David Ben-Gurion, focusing

on each leader's involvement with and image of America, as well as the impact of America on their lives and careers.

Sacred Treasures James Palmer 2012-05-01 It's A.D. 70. The Romans have destroyed the temple of Jerusalem. A small band of Jewish Christians flees to the relative safety of a ship heading out to sea. They've packed supplies for the long voyage. And that's not all they're carrying . . . Diane Thompson, single mom and ordinary twenty-first century woman, doesn't expect to encounter a mystery the day she walks into her favorite antique shop and scurries up to the top floor. But a chance meeting with an elderly woman turns Diane's world upside down. She is given a precious golden artifact and a task: find a treasure that will change mankind forever. She follows clues that lead her up and down the eastern seaboard and underground, into danger and adventure she never imagined. Along the way, she meets Robert, an archeologist, and

Rachel, a historian, who appear to be on the same quest but carry a different artifact. Is this by chance, or is there a higher power at work in their lives?

New World Sympathies

David Messum Fine Art 1992 Allah's Angels Walter G. Willaert 2020-08-20 Hardly recovered from his Russian adventure, John Halker discovers the truth about his father. He reunites with his distant family but lands in jail where he finds out what SAHRA truly means. He escapes spectacularly and after a lot of setbacks he gets picked up by USMC. He meets with his new fate and embarks on a new mission which brings him to the United States of America. After their withdrawal from the Middle East troubles, the Americans did not give up and plan a cyber-war unparalleled in history. John gets involved in the scheme as the authority on Islamic matters. And he meets the mysterious girl again who in the end comes to his rescue and crosses his path where ever he goes.

international connections, Spain and Portugal are seeking to expand their interests and presence in Latin America, and U.S. policy toward both regions has become increasingly complex. Contributors trace the history of Iberian-Latin American relations from colonial times and then examine the cultural, economic, political, and strategic ties that currently exist between the two regions. Particular attention is focused on the impact of Iberian-Latin American relations on U.S. foreign policy. The book concludes with a section of country-specific case studies.

America, 1843-1993 Alastair Burnet 1993 The Economist was fascinated by America from its first issue in 1943. It believed it had a commercial purpose to interpret one country to another, and use its experience to write with authority for both. It foresaw, early in the 1850s, that the United States would be the most powerful country in the world. There have been occasions, such as the Civil

War and the Cuban missile crisis, when the paper got it wrong but, for the most part, it has been adept at getting it right.

Deadly Connections Daniel Byman 2005-06-27 Thousands of people have died at the hands of terrorist groups who rely on state support for their activities. Iran and Syria are well known as sponsors of terrorism, while other countries, some with strong connections to the West, have enabled terrorist activity by turning a blind eye. Daniel Byman's hard-hitting and

articulate book analyzes this phenomenon. Focusing primarily on sponsors from the Middle East and South Asia, it examines the different types of support that states provide, their motivations, and the impact of such sponsorship. The book also considers regimes that allow terrorists to raise money and recruit without providing active support. The experiences of Iran, Pakistan, Afghanistan, Syria, Saudi Arabia, and Libya are detailed here, alongside the histories of radical groups such as al-Qaida and Hizballah. The book concludes by assessing why it is often difficult to force sponsors to cut ties to terrorist groups and suggesting ways in which it could be done better in the future.

connections to the fifty-six men who signed the Declaration of Independence. Over the two hundred-plus years that separate us, these connections are often surprising and always fascinating. Burke turns the signers from historical icons into flesh-and-blood people: Some were shady financial manipulators, most were masterful political operators, a few were good human beings, and some were great men. The network that links them to us is also peopled by all sorts, from spies and assassins to lovers and adulterers, inventors and artists. The ties may be more direct for some of us than others, but we are all linked in some way to these founders of our nation. If you enjoyed Martin Sheen as the president on television's *The West Wing*, then you're connected to founder Josiah Bartlett. The connection from signer Bartlett to Sheen includes John Paul Jones; Judge William Cooper, father of James Fenimore; Sir Thomas Brisbane, governor of New South Wales; an incestuous astronomer; an

itinerant math teacher; early inventors of television; and pioneering TV personality Bishop Fulton J. Sheen, the inspiration for Ramon Estevez's screen name, Martin Sheen. [The Texas Connection with the American Revolution](#) Robert H. Thonhoff 2000-01-01 All too often, when Americans think of the American Revolution, they think only in terms of the events that occurred in the thirteen English colonies. Important as they were, they do not tell the whole story. An oft-neglected part of it

concerns the role of Spain in the American Revolution. A generally unknown part of it is the Texas connection.

Overlooked by most historians much too long, the contribution of Spain, Texas included, was vital in the winning of American independence two hundred years ago.

Ethnic Dignity and the Ulster-Scots Movement in Northern Ireland Peter Gardner

2019-12-11 In this book, Peter Gardner contends that the production of narratives of ethnic peoplehood is an attempt to regain a sense of collective dignity among the previously dominant. After introducing the concept of ethnic dignity and locating its place within postconflict identity politics, Gardner focuses his analysis on the Ulster- Scots story of peoplehood. Drawing on a wealth of primary data, the chapters explore a variety of core issues including ethnopolitics, social class, political-economic ideology,

colonialism, and heteromascularity. The book concludes by taking a global view of post-conflict ethnic dignity among the once dominant, analysing the New Afrikaans movement in South Africa, white pride and ethnic whiteness studies, and Maronite Phoenicianism in Lebanon. This will be an important contribution for students and scholars of ethnicity, divided societies and, more broadly, political sociology.
