## **Amerikastudien** 1985

The United Stories of America Rolf Lundén 2022-06-08 This book discusses the American short story composite, or short story cycle, a neglected form of writing consisting of autonomous stories interlocking into a whole. The critical work done on this genre has so far focused on the closural strategies of the composites, on how unity is accomplished in these texts. This study takes into consideration, to a greater degree than earlier criticism, the short story composite as an open work, emphasizing the tension between the independent stories and the unified work, between the discontinuity and fragmentation, on the one hand, and the totalizing strategies, on the other. The discussion of the genre is illustrated with references to numerous American short story composites.

American Studies, Shifting Gears Birte Christ 2010 American Studies/Shifting Gears brings together contributions by younger scholars from Germany and by renowned colleagues from both sides of the Atlantic. Taking the debate about the "Futures of American Studies" as its point of departure, the volume addresses three larger issues that are crucial to the present and the future positioning of the field: first, the internationalization of the American Studies scholarly community and of scholarly exchange as well as the transnationalization of the field's objects of study; second, interdisciplinary collaborations and transdisciplinary approaches and research; and third, the politics and politicalness of American Studies. "American Studies/Shifting Gears" leads the reader expertly and creatively through what's at stake for the discipline. In its reflections and analyses, the volume slows down at times, then speeds up a little, halts and finds a resting-point, drives down slopes and up steep inclines, and, in the process, shifts gears.

**Beyond Ethnicity : Consent and Descent in American Culture**

Werner Sollors Professor of American Literature and Afro-American Studies Harvard University 1986-02-27 Nothing is "pure" in America, and, indeed, the rich ethnic mix that constitutes our society accounts for much of its amazing vitality. Werner Sollors's new book takes a wide-ranging look at the role of "ethnicity" in American literature and what that literature has said--and continues to say--about our diverse culture. Ethnic consciousness, he contends, is a constituent feature of modernism, not modernism's antithesis. Discussing works from every period of American history, Sollors focuses particularly on the tension between "descent" and "consent"--between the concern for one's racial, ethnic, and familial heritage and the conflicting desire to choose one's own destiny, even if that choice goes against one's heritage. Some of the stories Sollors examines are retellings of the biblical Exodus--stories in which Americans of the most diverse origins have painted their own histories as an escape from bondage or a search for a new Canaan. Other stories are "American-made" tales of melting-pot romance, which may either triumph in intermarriage, accompanied by new world symphonies, or end with the lovers' death. Still other stories concern voyages of self-discovery in which the hero attempts to steer a perilous course between

stubborn traditionalism and total assimilation. And then there are the generational sagas, in which, as if by magic, the third generation emerges as the fulfillment of their forebears' dream. Citing examples that range from the writings of Cotton Mather to *Liquid Sky* (a "post-punk" science fiction film directed by a Russian emigre), Sollors shows how the creators of American culture have generally been attracted to what is most new and modern. About the Author: Werner Sollors is Chairman of the Afro-American Studies Department at Harvard University and the author of *Amiri Baraka: The Quest for a Populist Modernism*. A provocative and original look at "ethnicity" in American literature DT Covers stories from all periods of our nation's history DT Relates ethnic literature to the principle of literary modernism DT "Grave and hilarious, tender and merciless...The book performs a public service."-Quentin Anderson

*Curried Cultures* Krishnendu Ray 2012-05 Although South Asian cookery and gastronomy has transformed contemporary urban foodscape all over the world, social scientists have paid scant attention to this phenomenon. *Curried Cultures*--a wide-ranging collection of essays--explores the relationship between globalization and South Asia through food, covering the cuisine of the colonial period to the contemporary era, investigating its material and symbolic meanings. *Curried Cultures* challenges disciplinary boundaries in considering South Asian gastronomy by assuming a proximity to dishes and diets that is often missing when food is a lens to investigate other topics. The book's established scholarly contributors examine food to comment on a range of cultural activities as they argue that the practice of cooking and eating matter as an important way of knowing the world and acting on it.

**The Insular Dream** Charles Altieri 1995 This multidisciplinary collection of essays by some of Europe's foremost Americanists deals with the United States as an island nation. America's trade policies, its foreign military ventures, its humour and its literature are all marked by the country's paradoxical desire to withdraw from the wider world beyond its oceans, while yet serving as its exemplar. The essays, covering aspects of legal and political studies, history and literature, probe the intersection between the national and the international As such they constitute an important contribution to the study of America's self-definition.

History and Memory in African-American Culture Professor of American Literature Genevieve Fabre 1994 The relation between history and memory has become an object of increasing attention among historians and literary critics. Through a team of leading scholars, this volume offers a complex picture of the dynamic ways in which an African-American historical identity constantly invents and transmits itself in books, art, performance, and oral documents.

**Nightmare Envy and Other Stories** George Blaustein 2018-01-05 What has it meant to be an Americanist? What did it mean to be an Americanist through fascism, war, and occupation? *Nightmare Envy and Other Stories* is a study of Americanist writing and institutions in the 20th century. Four chapters trace four routes through the mid-twentieth century. The first chapter is the hidden history of American Studies in the United States, Europe and Japan. The second is the strange career of "national character" in anthropology. The third is a contest between military occupation and cultural diplomacy in Europe. The fourth is the emergence and fate of the "American Renaissance," as the scholar and literary critic F.O. Matthiessen carried a canon of radical literature across the Iron Curtain. Each chapter culminates in the postwar period, when the ruin of postwar Europe led writers and intellectuals on both sides of the Atlantic to understand America in new ways. Many of our

modern myths of the United States and Europe were formed in this moment. Some saw the United States assume the mantle of cultural redeemer. Others saw a stereotypical America, rich in civilization but poor in culture, overtake a stereotypical Europe, rich in culture and equally rich in disaster. Drawing on American and European archives, the book weaves cultural, intellectual, and diplomatic history, with portraits of Matthiessen, Margaret Mead, Ruth Benedict, David Riesman, Alfred Kazin, and Ralph Ellison. It excavates the history of the Salzburg Seminar in American Civilization, where displaced persons, former Nazis, budding Communists, and glad-handing Americans met on the common ground of American culture. Others found keys to their own contexts in American books, reading *Moby-Dick* in the ruins. *Nightmare Envy and Other Stories* chronicles American encounters with European disaster, European encounters with American fiction, and the chasms over which culture had to reach.

**The American Idea of England, 1776-1840** Jennifer Clark 2016-04-01

Arguing that American colonists who declared their independence in 1776 remained tied to England by both habit and inclination, Jennifer Clark traces the new Americans' struggle to come to terms with their loss of identity as British, and particularly English, citizens. Americans' attempts to negotiate the new Anglo-American relationship are revealed in letters, newspaper accounts, travel reports, essays, song lyrics, short stories and novels, which Clark suggests show them repositioning themselves in a transatlantic context newly defined by political revolution. Chapters examine political writing as a means for Americans to explore the Anglo-American relationship, the appropriation of John Bull by American writers, the challenge the War of 1812 posed to the reconstructed Anglo-American relationship, the Paper War between American and English authors that began around the time of the War of 1812, accounts by Americans lured to England as a place of poetry, story and history, and the work of American writers who dissected the Anglo-American relationship in their fiction. Carefully contextualised historically, Clark's persuasive study shows that any attempt to examine what it meant to be American in the New Nation, and immediately beyond, must be situated within the context of the Anglo-American relationship.

**Immigrants in Two Democracies** Donald Horowitz 1992 International migration is often considered a relatively new development in world history. Yet, while there has been a surge in migration since World War II, the worldwide movement of peoples is a longstanding phenomenon. So, too, are the fundamental issues raised by immigration. How do immigrants fit into and affect the polity and society of the country they enter? What changes can or must the receiving state make to accommodate them? What changes in culture and ethnic identity do immigrants undergo in their new environment? How do they relate to the mix of peoples already present in their new homeland? What determines the policies that govern their reception and treatment? In this volume, expertly edited by a leading American political scientist-lawyer and a leading French historian, twenty-one renowned experts on immigration address these questions and a variety of other issues involving the experiences of immigrants in the city, at the workplace, and in schools and churches. Their essays examine the issues of nationality, citizenship, law, and politics that define the life of an immigrant population. Focusing on the United States and France, this volume is a social history and a legal and public policy study that comprehensively portrays the dilemmas immigrants present and face. Contributors include Sophie Body-Gendrot, Danielle Boyzon-Frader, Andre-Clement Decoufle, Veronique de Rudder, Lawrence H. Fuchs, Nathan Glazer, Philip Gleason, Stanley Lieberson, Lance Liebman, Daniele Lochak, Michel Oriol, Martin A. Schain, Peter H. **Pocahontas's Daughters** Mary V. Dearborn 1986 Using the figure of Pocahontas, America's first ethnic heroine, as a representative symbol in the cultural imagination of America, this volume examines American women's fiction in terms of gender and ethnicity. Dearborn discusses the problems of authenticity, authority, and genre that plague the ethnic female tradition, and analyzes the dominant themes that appear in American women's fiction--generational conflict, renunciation of one's

ethnic origins, and intermarriage. She evaluates the writings of black, immigrant, and Jewish women from *Our Nig* by Mrs. H.E. Wilson, the first novel by a black woman, to the works of Gertrude Stein and Toni Morrison, and concludes that American women writers who take ethnicity as an integral part of the American identity can best portray what it is to be a woman and an outsider in the social fabric of America. **The Cultural Shuttle** European Association for American Studies.

Conference 2004 'What is whose?' As there develops increasing speculation, in our age, on the nature of 'globalisation', the prodigious flux of ideas, people, ideas, goods and fashions between Europe and the United States over the centuries invites nuanced approaches and a modicum of relativisation. Imports and exports, the endless back and forth movement of political, social, economic, cultural notions and institutions permanently raise the question of reciprocal influences and contributions. 'Facing realities' is both a fact and an indispensable activity. American institutions are indebted to European thought, American culture has to deal with European visions and the variety of the European heritage; American social and political circumstances keep informing and interfering with European choices and decisions. What notions, values and artefacts are indeed 'adopted' by one or the other continent turn out to be selected in the name of idiosyncratic cultural dispositions and thereby undergo subtle modifications. No cultural object or sign ever travels without being profoundly transformed. This volume examines nationhood, citizenship and culture, on both sides of the Atlantic, in the light of such complex exchanges. At a time when Europe is exploring its own political organization, it seeks to profit by the American experience; at a time when American culture is more and more forcefully asserting its presence in Europe, critical evaluations of its real pertinence grow more numerous. What superficially appears to be one-sided imposition turns out to be an intricate and complex dialogue. Resistance, caution, recalcitrance, defiance and rejection are as important for a definition of identity as enthusiastic sharings and the adoption of welcomed influences, however ambiguous and variously motivated. An analysis of misunderstandings is the surest way to mutual comprehension. Climb aboard the cultural shuttle.

Challenges of Diversity Werner Sollors 2017-10-26 What unites and what divides Americans as a nation? Who are we, and can we strike a balance between an emphasis on our divergent ethnic origins and what we have in common? Opening with a survey of American literature through the vantage point of ethnicity, Werner Sollors examines our evolving understanding of ourselves as an Anglo-American nation to a multicultural one and the key role writing has played in that process. *Challenges of Diversity* contains stories of American myths of arrival (pilgrims at Plymouth Rock, slave ships at Jamestown, steerage passengers at Ellis Island), the powerful rhetoric of egalitarian promise in the Declaration of Independence and the heterogeneous ends to which it has been put, and the recurring tropes of multiculturalism over time (e pluribus unum, melting pot, cultural pluralism). Sollors suggests that although the transformation of this settler country into a polyethnic and self-consciously multicultural nation may appear as a story of great progress toward the fulfillment of egalitarian ideals, deepening economic inequality actually exacerbates the divisions among Americans today.

**The Model Man** Hans Krabbendam 2022-06-08 Edward William Bok was the most famous Dutch-American in early twentieth-century America thanks to his thirty-year editorship of the *Ladies' Home Journal*, the most prestigious women's magazine of the day. This first complete coverage of Edward Bok's life places him against his ethnic background and portrays him as the spokesman for and the mold of the American middle class between 1890 and 1930. He acted as a mediator between a Victorian and a modern society, reconciling consumerism with idealism. As a Dutch immigrant he became a model for successful adaptation to a new country and modern times. He used his national reputation to restore America's internationalism in the 1920s. His life story is relevant to those

interested in the history of immigration, journalism, the rise of big business, the women's movement, and the Progressive Movement. *Fragments of Union* S. Manning 2001-12-17 *Fragments of Union*, a new approach to comparative literary studies, is about forms of connections: between nations, literatures, individuals, words. It asks how, and why, connections get severed, and about the nature of the pieces that remain. Interdisciplinary readings of writings by Scots and Americans re-draw the literary map of both countries during the Enlightenment and Romantic periods. Political, philosophical, cultural and grammatical dimensions give its analysis sharp relevance to the new conditions presented by devolved government in Britain.

**The US Constitution After 200 Years** Rob Kroes 1988

**Straddling Borders** Rob Kroes 2004 This volume explores the possibilities and implications of transnational citizenship in terms of its cultural affinities and political affiliations. The historical experience of the US, as a federal and multi-cultural project, first inspired the concept of transnationalism. The development of the EU constitutes a more recent daring project that opens up all manner of questions concerning such transnational citizenship. The US offers a rich store of comparisons of relevance to the ongoing formation of the New Europe. This volume brings together contributions by American Studies scholars from such various transnational settings and asks them to address questions of transnational citizenship and of the American resonance in its formation.

**Multiculturalism and the Canon of American Culture** Hans Bak 1993 In recent years the unity of American culture has been a major topic of literary and intellectual discussion in the United States. The established reading of the American national identity has come under mounting pressure from ethnic minorities of non-European origin. Leading universities have adjusted the Eurocentric canon of the Western literary and cultural tradition, or are considering the need to do so. As a result, a fierce and polarizing debate is being conducted among American writers, intellectuals and educators. In the nineteen essays gathered in this volume scholars from Europe and North America explore the complex range of tensions between the various subcultures and the cultural mainstream in the United States and Canada, as exemplified in intellectual debate, in politics, in religion, in higher education, and in literature, especially in recent American writing by members of cultural minorities: Native Americans, Asian Americans, Hispanic Americans and African Americans.

*History and Memory in African-American Culture* Genevieve Fabre Professor of American Literature University of Paris 1994-10-29 As Nathan Huggins once stated, altering American history to account fully for the nation's black voices would change the tone and meaning--the frame and the substance--of the entire story. Rather than a sort of Pilgrim's Progress tale of bold ascent and triumph, American history with the black parts told in full would be transmuted into an existential tragedy, closer, Huggins said, to Sartre's *No Exit* than to the vision of life in Bunyan. The relation between memory and history has received increasing attention both from historians and from literary critics. In this volume, a group of leading scholars has come together to examine the role of historical consciousness and imagination in African-American culture. The result is a complex picture of the dynamic ways in which African-American historical identity constantly invents and transmits itself in literature, art, oral documents, and performances. Each of the scholars represented has chosen a different "site of memory"--from a variety of historical and geographical points, and from different ideological, theoretical, and artistic perspectives. Yet the book is unified by a common concern with the construction of an emerging African-American cultural memory. The renowned group of contributors, including Hazel Carby, Werner Sollors, Veve Clark, Catherine Clinton, and Nellie McKay, among others, consists of participants of the five-year series of conferences at the DuBois Institute at Harvard University, from which this collection originated. Conducted under the leadership of Genevieve Fabre, Melvin Dixon, and the late Nathan Huggins, the conferences--and as a result, this book--represent something of a cultural moment themselves, and scholars and students of American and African-American literature and history will be richer as a result.
